TCS Helps Ayala Land Digitally Transform its Finance Function

- *Tata Consultancy Services Completes the First SAP S/4HANA Implementation in the Philippines*
- *The Cloud-led Transformation Led to Increased Business Agility and Flexibility to Drive New Revenue and Profits for ALI*

MANILA | MUMBAI, December 4, 2019: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has announced that it has successfully completed the finance transformation for Ayala Land Inc. (ALI), by migrating its operations to SAP S/4HANA, in the first such implementation in the Philippines.

ALI is a large sustainable estates developer that offers a diverse mix of properties such as residential, retail, office, hotels, and leisure developments. The company was looking to deploy a quick and responsive finance platform that would cater to a larger user base across all its diverse subsidiaries and support its future growth. ALI partnered with TCS to simplify business operations and accelerate its cloud-led digital transformation journey.

TCS' in-depth understanding of business processes and SAP S/4HANA capabilities helped the real estate company accelerate time-to-market and achieve the scalability needed to meet its business goals. This business transformation initiative laid a strong foundation for ALI to bring subsidiaries onto a common platform for integrated business operations. The company accelerated financial closures with 80% faster processing time and has improved visibility of cash positions to run its business operations far more effectively.

"Our strategy to ensure the realization of our business goals led us to identify irregularities in our current systems and acknowledge issues with performance, database size and manual business processes. TCS as a partner, has the meticulous skills, experience and insights to help us stride through this extremely complex and demanding transformation initiative," said **Annie Alipao, CIO, Ayala Land, Inc**.

"With the S/4HANA conversion, ALI will optimize and drive standard process adherence for better system performance and future scalability. TCS' comprehensive portfolio of end-to-end services will go a long way to ensure ALI maximizes business value from their technology investments and will help it achieve greater business agility and operational excellence," said **Akhilesh Tiwari, Global Head, Enterprise Application Services, TCS**.

"We are delighted to be ALI's partner in their digital transformation journey. Our preconfigured industry solutions, tools and accelerators along with contextual knowledge and use of industry best practices have been instrumental in ensuring speed and success of this implementation," said **Shiju Varghese, Country Head, TCS Philippines**.

TCS offers a comprehensive, integrated full services portfolio around the SAP technology stack, across industries, business domains and geographies. Services include consulting, advisory, implementation, rollouts, upgrade, shared services, and hosting services. TCS helps enterprises evaluate SAP's newer digital offerings such as SAP S/4HANA, Hybris, SuccessFactors, Ariba, and more, and draw up their future architecture and strategy.

About Tata Consultancy Services Ltd. (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for the last 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 450,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US $20.9 billion in the fiscal year ended March 31, 2019, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
