TCS a Leader in IDC MarketScape for Global DevOps Services

Tata Consultancy Services' Partnerships, Delivery Centers, R&D, and Customer Relationships cited as Key Strengths

NEW YORK | MUMBAI, November 20, 2018: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting, and business solutions organization, has been recognized as a Leader in the IDC MarketScape for Global DevOps Services.[1]

According to the report, TCS was rated highly for its capabilities in partnerships, delivery centers, and R&D and training investment areas. The report also noted, TCS customers gave strong satisfaction reviews and commented positively on TCS' ability to create long-standing partnerships with their organizations.

"Agility, one of the four key pillars of Business 4.0, and DevOps enable enterprises to deliver change faster, so that they can sense and respond better to a dynamic market place," said **Nidhi Srivastava, Global Head, Enterprise Agility, TCS**. *"Our leadership positioning in this report is a reflection of our strategy, strong capabilities in DevOps, and delivery model."*

TCS delivers on Business 4.0 strategies with intelligent, agile, cloud-based, and automated DevOps capabilities – all at the accelerating speed of business. With customer experience at the center of all development activities, TCS helps customers drive a continuous rebalancing of their portfolio to deliver the right, secure capabilities at the right time.

The company's DevOps transformation capability is built on deep investments on platforms such as JILE™ and customer innovation hubs. Its end-to-end Agile DevOps services are delivered leveraging the Location Independent Agile Model, and include:

- **Advisory Services**: Aligning to and driving Business 4.0 transformations, including maturity assessments, location-independent models, and business case, roadmap, and target operating model development.

- **Implementation and Managed Services**: Ensuring excellence in DevOps delivery with the deployment of practices and toolchains, managed services, and training and coaching.

- **Tools and Accelerators**: Leveraging best-in-class proprietary solutions through 360-degree relationships with platform partners. Custom-built platforms ignio™, Jile™, and TCS Mastercraft™ help customers accelerate application development and ensure shorter release cycles.

[1] IDC MarketScape: Worldwide DevOps Services 2018 Vendor Assessment, doc #US41235417, November 2018

- **Research and Innovation:** Ensuring customers are ahead of the game, with seven DevOps related patents and a rich partner ecosystem of venture capitalists, academics, and startups through the TCS Co-innovation (COIN®) network.

"DevOps adoption has surged over the past 24 months, and many organizations have been able to leverage DevOps to power faster application delivery, bolster application quality, and enhance application time to value. But, while DevOps adoption has ballooned, organizations still have much runway left to develop deeper expertise and maturity," said **Peter Marston, Research Director, IDC.** *"TCS is driving DevOps successes in organizations with its strength of scale, service delivery consistency, and frictionless integration with its own personnel. Customers gave TCS strong satisfaction reviews and commented positively on the company's ability to create long-standing partnerships with their organizations."*

"Our technical skills, domain and contextual knowledge, proprietary products and frameworks, and continuous investments in building new competencies within our talent base, make us a preferred partner to enterprises in their agile and DevOps transformation journeys," added **Nidhi Srivastava**.

About IDC MarketScape

IDC MarketScape vendor analysis model is designed to provide an overview of the competitive fitness of ICT (information and communications technology) suppliers in a given market. The research methodology utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each vendor's position within a given market. IDC MarketScape provides a clear framework in which the product and service offerings, capabilities and strategies, and current and future market success factors of IT and telecommunications vendors can be meaningfully compared. The framework also provides technology buyers with a 360-degree assessment of the strengths and weaknesses of current and prospective vendors.

About Tata Consultancy Services Ltd. (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for the last fifty years. TCS offers a consulting-led, Cognitive powered, integrated portfolio of IT, Business & Technology Services, and engineering. This is delivered through its unique Location Independent Agile delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 411,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US $19.09 billion for year ended March 31, 2018 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award winning

work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index. For more information, visit us at www.tcs.com.
