TCS to Help VIAVI Develop Next-gen 5G Solutions

Tata Consultancy Services' Existing Product Engineering Engagement Expanded to Cover New 5G Test and Validation Solutions

LONDON | MUMBAI, December 19, 2019: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS) a leading global IT services, consulting and business solutions organization, announced that it has expanded its long-standing partnership with VIAVI Solutions, a global provider of network test, measurement and assurance solutions, to support the development of next-generation products and solutions, leveraging technologies such as 5G, agile, automation, and IoT.

Over the last 20 years, TCS' relationship with VIAVI has evolved into a strategic one. With its investments in research and innovation of wireless technologies and deep contextual knowledge of the wireless industry, TCS has helped VIAVI deliver high-quality products with speed to market and helped it become a world leading supplier of Test Mobiles.

As wireless technologies evolve at a rapid pace, test and measurement products are foundational for networking and smart device companies to develop the next wave of wireless technologies. Hence, there is a huge demand for robust 5G test and validation solutions, to hasten the product journey from the lab to the field and ensure optimal customer experience and quality. With its strong product engineering capabilities, powered by the Location Independent Agile Model, TCS will continue to partner with VIAVI as the cellular industry migrates from LTE to 5G.

"As the world moves to 5G, test and validation solutions will play a significant role in enabling this shift. TCS is proud to be VIAVI's partner in this journey to unlock the huge transformational potential that 5G brings across industry verticals such as manufacturing, healthcare, retail and smart cities, among others," said **V Rajanna, Global Head, Technology Business Unit, TCS.**

Charl Cilliers, Vice President, Engineering, VIAVI, said, *"Our relationship with TCS enhances VIAVI's ability to rapidly deliver market-leading capabilities whilst maintaining flexibility against the backdrop of rapidly evolving technology demands of our customers. We are excited to continue the partnership for the next leg of our growth journey with next-gen 5G solutions."*

About Tata Consultancy Services Ltd. (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for the last fifty years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 450,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US $20.9 billion in the fiscal year ended March 31, 2019, and is listed on the BSE (formerly Bombay Stock Exchange) and the

NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
