TCS Recognized as a Leader in Gartner MQ for Data Center Outsourcing and Hybrid Infrastructure Managed Services, NA

Tata Consultancy Services' ability to provide measurable business outcomes with its industry-aligned solutions, its investments in ignio™, and strong automation capabilities cited as key strengths

NEW YORK | MUMBAI, August 27, 2018: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has been recognized as a Leader for the third year in a row, in the Gartner Magic Quadrant for Data Center Outsourcing and Hybrid Infrastructure Managed Services, North America.[1]

"With the advent of Digital, IT is closer to business than ever before, enabling agility, flexibility and faster go-to-market, thereby creating a competitive edge. Infrastructure platforms support complex, distributed applications using new technologies that are spread across systems in multiple locations, including on-premises data centers, public and private clouds – a truly hybrid landscape," said **Krishna Mohan, Head IT Infrastructure Services and Deputy Head Cognitive Business Operations, TCS**. "We believe *Our Leadership position is a recognition of our vision and strategy, comprehensive processes and methodologies, and our proven track record in delivering substantial business value to our customers."*

TCS' IT Infrastructure Services Practice is part of the Cognitive Business Operations (CBO) unit that helps companies embed intelligence and digital technologies in IT and business operations to drive exponential customer value.

TCS is helping leading corporations across the world transform their workplaces and embrace a cloud-first strategy to modernize their IT infrastructure and make it easily available, more reliable, and highly flexible to meet dynamic business needs. TCS offers an end-to-end infrastructure services portfolio consisting of agile data center offerings such as Disaster Recover Automation, Data Center Batch and Workload Automation Services, TCS Openstack IaaS, cloud advisory services, hybrid strategy and roadmap definition, assessment, deployment and implementation, workload migration and hybrid managed services, spanning public, private and hybrid cloud environments.

With the Machine First Delivery Model (MFDM™), TCS works closely with enterprises to help them move up the automation maturity curve in a controlled, predictable, and planned manner. In addition to partnering with leading automation product vendors, TCS deploys its own cognitive automation platform ignio™ to transform customers' diverse and complex IT infrastructure landscape into highly-resilient, self-healing stacks.

---

Gartner does not endorse any vendor, product or service depicted in its research publications, and does not advise technology users to select only those vendors with the highest ratings or other designation. Gartner research publications consist of the opinions of Gartner's research organization and should not be construed as statements of fact. Gartner disclaims all warranties, expressed or implied, with respect to this research, including any warranties of merchantability or fitness for a particular purpose.

TCS has deep relationships with all leading cloud technology providers like AWS, Microsoft Azure, Google. In addition, for customers with special requirements, TCS' Enterprise Cloud Platform (ECP) offers a broad range of flexible private cloud infrastructure options, including PaaS. Its data services backbone is powered by the SMACK stack (Spark, Mesos, Akka, Cassandra, Kafka), a proven open source stack, which helps clients who have a need for Big Data, analytics, IoT, and streaming data workload requirements.

"TCS' investments in innovation, intellectual property such as ignio™, and comprehensive end-end IT infrastructure offerings are helping our customers holistically embrace cloud and automation, and accelerate their Business 4.0 transformation journeys," added **Krishna Mohan**.

About Tata Consultancy Services:

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for the last fifty years. TCS offers a consulting-led, Cognitive powered, integrated portfolio of IT, Business & Technology Services, and engineering. This is delivered through its unique Location Independent Agile delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 400,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US $19.09 billion for year ended March 31, 2018 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award winning work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
