Tata Consultancy Services Inaugurates New Center in Minneapolis

TCS Solutions Center – Minneapolis is a Continuation of TCS' Growing Investments and Employment in the United States

BLOOMINGTON, September 18, 2012: Tata Consultancy Services (BSE: 532540, NSE: TCS), the leading IT services, consulting and business solutions organization, today announced the official opening of the TCS Solutions Center - Minneapolis in Bloomington, Minnesota. The inauguration of TCS' newest facility was celebrated with a ribbon cutting event on September 14, 2012.

Located in the Normandale Lake Office Park, the 50,000 square foot facility will be home to roughly 300 TCS employees. The center will serve as a hub for delivering technology services to customers in the region and is an integral part of TCS' Global Network Delivery Model™, which provides a quality of service and certainty of outcome that TCS' customers have come to rely on.

"The decision to open a new TCS facility in the Minneapolis region is part of our company's on-going commitment to grow our presence in each and every market we serve," said N. Chandrasekaran, TCS' Chief Executive Officer and Managing Director. "Over the past few years, Minnesota has put an emphasis on technological innovation that aligns with TCS' breadth of industry expertise, innovative engineering strength and commitment to providing cutting-edge solutions, and will only enhance the scope and scale of our customer offerings in North America."

"TCS welcomes the employees of our newest facility into the organization," said Surya Kant, President of TCS' North American, UK and European operations. "This facility represents TCS' latest investment in the United States market as we continue to seek out ways to better serve our customers here and around the world."

"We are very excited and deeply grateful that Tata Consultancy Services has decided to expand its operations in Minnesota," said Governor Mark Dayton. "The company will become a very important employer in Bloomington, and we look forward to assisting its continued success and growth in Minnesota."

The Minneapolis facility is the latest addition to TCS' growing operations across North America. TCS won its first North American client in 1971 and set up operations in New York City in 1979. TCS now has eighteen offices across the United States offering innovative technology solutions and services that provide its customers with a competitive edge in the marketplace.
