TCS Recognized by Eaton for Premier Supplier Excellence

Honor Marks TCS' 2nd Premier Supplier Award from Recognized Leader in Global Power Management

Mumbai, May 29, 2012: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS) a leading IT services, consulting, and business solutions organization, today announced that it received the 2011 Eaton Premier Supplier Award for the Indirect Supplier in Information Technology Services category. Diversified industrial manufacturer Eaton Corporation honored 33 of its best suppliers at its seventh Supplier Awards Program in April at the downtown Cleveland Marriott.

"We are proud to honor this elite group of suppliers for their outstanding service and commitment to excellence. The Premier Supplier awards are reserved for Eaton's best suppliers across the enterprise," said **Craig Reed, Eaton senior vice president, Supply Chain Management**. "We congratulate each of our suppliers for their efforts in establishing Eaton as a global power management company and look forward to their continuing contributions in 2012."

The award winners fall within one of two supplier categories: Direct or Indirect Materials and Services. Direct Materials suppliers are those which provide goods used directly in the making of products (e.g. steel, bearings, seals, castings); Indirect Materials and Services suppliers provide goods or services to support plant production and maintenance or office services (e.g. cutting fluid, maintenance repair, office supplies, travel services).

"TCS is delighted to be honored with the Eaton Premier Supplier Award in the Indirect Supplier for Information Technology Services," said **Milind Lakkad, TCS' Global Head of manufacturing**. TCS and Eaton have had a long and very productive relationship and as this valuable partnership continues to grow, TCS remains committed to providing Eaton with the capabilities and support it needs to be successful in all its endeavors."

About Eaton Corporation

Eaton Corporation is a diversified power management company with more than 100 years of experience providing energy-efficient solutions that help our customers effectively manage electrical, hydraulic and mechanical power. With 2011 sales of $16.0 billion, Eaton is a global technology leader in electrical components, systems and services for power quality, distribution and control; hydraulics components, systems and services for industrial and mobile equipment; aerospace fuel, hydraulic and pneumatic systems for commercial and military use; and truck and automotive drivetrain and powertrain systems for performance, fuel economy and safety. Eaton has approximately 72,000 employees and sells products to customers in more than 150 countries. For more information, visit www.eaton.com.
