TCS wins Leading Vendor Award for Quality Assurance Services

London |Mumbai, November 25, 2014: Tata Consultancy Services (BSE: 532540, NSE: TCS), a leading IT services, consulting and business solutions organisation, has been named the Leading Vendor Award for Quality Assurance (QA) and Testing services at TESTA 2014. The award highlights TCS' continuous commitment to its customers in the region, and recognizes its world-class products and service portfolio in the QA and Testing space.

Siva Ganesan, Vice President and Global Head, Assurance Services Unit, TCS, said, "We are delighted to receive the TESTA award for Leading Vendor for our Assurance Services. It is yet another independent market validation of our leadership in this segment, and the value we bring to our customers through assurance."

Speaking on the occasion, David Land, Editor, TEST Magazine, congratulated TCS on their win and said, "In a competitive environment, with a 45% year on year uplift in entries to TESTA, TCS' exemplary products and services stood out, and their commitment to excellence was clearly apparent. This much coveted award is for the vendor who receives top marks for their products/services and customer service, and Tata Consultancy Services is a worthy winner."

An independent awards programme to celebrate and promote excellence, best practice and innovation in the UK & European software testing and QA community, The European Software Testing Awards (TESTA) was inaugurated in 2013 by TEST Magazine, the UK's top software testing publication, published by the prestigious publishing group, 31 Media.

About 31 Media

A multi-platform media and communications company serving the IT and software testing community, 31 Media is a young and lively organisation, focused on identifying new and innovative ways that can further help its customers be more successful in their day-to-day roles. 31 Media is committed to providing authoritative publications and reports, comprehensive community based websites, and cutting edge conferences and events, all of which encourage its readers and delegates to question their strategies and processes, enabling them to implement effective change and react to the ever increasing demands of modern business. In addition, its prestigious awards programme recognises and honours outstanding individuals within the IT and software testing community.
