

## TechD CYBERSECURITY LIMITED

NSE: TECHD | CERT-In Empanelled | ISO/IEC 27001:2022 Certified MSSP

PRESS RELEASE | FOR IMMEDIATE RELEASE

Ahmedabad / Warananagar, Maharashtra | 13 May 2026

### TechD Cybersecurity Limited (NSE: TECHD) signs MoU with Warana University, Maharashtra, to advance Cybersecurity and AI education

Cybersecurity threats in 2026 are increasingly driven by AI-enhanced attacks, sophisticated phishing campaigns, and ransomware operations targeting critical infrastructure and sensitive data. Emerging risks such as deepfake-enabled fraud, supply chain compromises, and insider threats continue to challenge organizations worldwide, while ransomware remains one of the most disruptive and rapidly evolving cyber dangers.

At the same time, the shortage of skilled cybersecurity professionals has created an urgent need for stronger collaboration between academia and industry. In this context, partnerships with leading organizations such as TechDefense Lab play a vital role in building cyber resilience by training faculty members and students in advanced cybersecurity practices, AI-driven defense mechanisms, and threat mitigation strategies.

Recognizing this need, Warana University, Warananagar — Maharashtra's first State Cluster University — has signed an MoU with TechD Cybersecurity Limited (NSE: TECHD) on 12th May 2026 in the domains of Artificial Intelligence and Cybersecurity, for an initial three-year term.

*"Recognizing this need, Warana University has achieved a significant milestone by signing a Memorandum of Understanding (MoU) with TechDefense Lab in the domains of Artificial Intelligence and Cybersecurity. The collaboration aims to strengthen research, skill development, industry-oriented training, and innovation, preparing students and educators to address the rapidly evolving digital threat landscape."*

— **Dr. Vilas V. Karjinni**, Member, GC and BoG, Warana University, Warananagar, Maharashtra.

*"As India accelerates its digital transformation, we need a cybersecurity workforce that is industry-ready from day one. Our partnership with Warana University is designed not just to create talent, but to put it to productive work before graduation. Through the Centre of Excellence at TKIET, students will engage on real VAPT, SOC monitoring and threat intelligence problems under certified TechD professionals, building Bharat's indigenous cyber-defence capability."*

— **Mr. Sunny Vaghela**, Founder & Managing Director, TechD Cybersecurity Limited (NSE: TECHD).

### Key Highlights of the Collaboration

---

- **Centre of Excellence** in Cybersecurity & AI at TKIET, with a fully equipped live Cybersecurity Lab.
- **Joint UG/PG programs** including B.Tech (Cyber Security / AI-ML), M.Sc., MBA and MCA in Cybersecurity, and Diploma in Cyber Law.
- **Industry-certified faculty** (CEH, OSCP, CISSP, CISM) deployed by TechD, plus summer internships for eligible students.
- **Live consultancy under the CoE** — students work on real enterprise VAPT, SOC and audit engagements before graduation.
- **Licensed enterprise tools** and joint conferences, workshops and hackathons.

### About TechD Cybersecurity Limited (NSE: TECHD)

---

TechD Cybersecurity Limited (NSE: TECHD) is a CERT-In empanelled, ISO/IEC 27001:2022 certified MSSP listed on NSE Emerge in September 2025, serving 500+ enterprise clients through VAPT, Managed SOC/SIEM and GRC services.

### About Warana University, Warananagar

---

Warana University is the first State Public University established under the Cluster University concept of the Government of Maharashtra, with TKIET as a constituent institute, located at Warananagar, District Kolhapur.
