

## Press Release Announcement

### TechD Cybersecurity Signs MoU with CRISP Bhopal to Strengthen Government-Focused Cybersecurity Infrastructure using AI-Driven Technologies

**Bhopal / Ahmedabad | February 26, 2026**

In a move aimed at bolstering cybersecurity preparedness across government and industrial ecosystems, Techd Cybersecurity Limited has signed a Memorandum of Understanding (MoU) with the **Centre for Research and Industrial Staff Performance (CRISP), Bhopal, an autonomous body under the Government of Madhya Pradesh.**

The agreement outlines collaboration for the establishment of an **AI-Driven Managed Security Operations Center (MSOC) and specialized Automotive, IoT, OT, and Hardware Cybersecurity Labs** at CRISP's campus.

The partnership is expected to support **government departments, public sector undertakings (PSUs), and industrial clusters by strengthening cybersecurity skill development and enabling project-level collaboration.**

The scope includes joint training programs in **SOC operations, industrial cybersecurity, and automotive security, along with internship pathways and joint certification initiatives.**

The two organizations will also collaborate **on cybersecurity projects aligned with government and industry requirements, including applied research and standards-driven initiatives.**

Sunny Vaghela, MD & CEO, Techd Cybersecurity Limited, said the **collaboration reflects the growing need for structured cybersecurity infrastructure and talent development to address evolving threats targeting critical systems.**

A representative from CRISP Bhopal stated that **the initiative aligns with the state's focus on advanced technical education and industry-ready skill development and AI Driven Cybersecurity delivery.**
