

TechEra Engineering (India) Limited Secures Development-cum-Supply Order from Indian Air Force for Rafale Fleet Support

Pune, August 05, 2026

TechEra Engineering (India) Limited has received a Development-cum-Supply Order from Air Force for the design, development and supply of a Multifunction Probe Deburring Tool.

The order, placed against a drawing referencing the Rafale programme, represents TechEra Engineering's entry into the maintenance and support supply chain for the Indian Air Force's Rafale fleet. The successful prototype qualification and delivery could support similar development-cum-supply orders from other IAF depots going forward.

Management Commentary:

"The order, placed against a drawing referencing the Rafale programme, represents TechEra Engineering's entry into the maintenance and support supply chain for the Indian Air Force's Rafale fleet. While the prototype order is modest in value, our successful qualification opens the door to a recurring bulk supply for future orders".
