Encl.: As above.

Press Release

Tech Mahindra and Bosch Software Innovations announce Global System Integrator Partnership

This partnership aims to accelerate the delivery of software solutions and to reduce time-to-market across multiple industries.

Singapore – October 22, 2013 – Tech Mahindra Ltd., a specialist provider of connected solutions to the connected world and an enabler of future digital enterprises and Bosch Software Innovations, the software and systems house of the Bosch Group, today announced a global strategic business partnership which will primarily focus on the global manufacturing and transportation industry.

The partnership aims to develop and deliver scalable digital enterprise solutions in the 'Internet of Things and Services' space. This space is expected to grow exponentially as more than 20 billion devices are expected to be connected to the Internet by 2015 and 50 billion by 2020. This partnership will empower Tech Mahindra and Bosch to be the forerunners in enabling customers to be prepared for this transformation. Tech Mahindra and Bosch will jointly develop solutions for industrial equipment management, connected services, and intermodal transportation.

"Tech Mahindra's expertise in enterprise solutions and its global market presence, along with the state-of-the-art product portfolio and industry experience will enable this partnership to deliver innovative end-to-end solutions to our customers", says Klaus Hueftle, Managing Director, Bosch Software Innovations GmbH.

"Bosch Software Innovation's cutting edge technologies for the 'Internet of Things and Services' complement Tech Mahindra's connected world focus perfectly. The partnership is strategic and will help us provide solutions to our customers and prospects to increase efficiency and save net costs", adds **Rajeev Sundaresan, Head, Business Process Management, Tech Mahindra.**

Bosch Software Innovations globally work with clients to address their business challenges and optimize their business processes. The company's software suite comprises core products for Business Process Management (BPM), Business Rules Management (BRM), and Device Management (M2M). The holistic suite creates the foundation to address connectivity needs in a networked world, allowing businesses to implement new business models successfully.

Tech Mahindra's BPM Practice enjoys a market leadership position in Telecom, Manufacturing, BFSI and other verticals and has a large pool of certified professionals with rich implementation experience. Tech Mahindra's expertise in BPM implementations encompasses functional areas of multichannel integration, legacy transformation, contact center management, new business automation and customer relationship management, thus harnessing the full power of BPM technology. The spectrum of services consists of BPM Advisory and Assessment Services, Implementation, optimization and CoE. Tech Mahindra has industry-focused reusable assets, artifacts, accelerators with which they collaborate with product partners to deliver customized solutions.

END

About Tech Mahindra

Tech Mahindra represents the connected world, offering innovative and customer-centric information technology services and solutions, enabling Enterprises, Associates and the Society to Rise™. We are a USD 2.7 billion company with 83,000 professionals across 49 countries, helping over 560 global customers including Fortune 500 companies. Our Consulting, Enterprise and Telecom solutions, platforms and reusable assets connect across a number of technologies to derive tangible business value.

We are part of the USD 16.2 billion Mahindra Group that employs more than 155,000 people in over 100 countries. The Group operates in the key industries that drive economic growth, enjoying a leadership position in tractors, utility vehicles, after-market, information technology and vacation ownership.
