Please acknowledge receipt of the same.

Thanking you

For Tech Mahindra Limited

G. Jayaraman
Company Secretary

Encl.: As above.

Press Release

RTI Announces Global Services Delivery Collaboration with Tech Mahindra

Tech Mahindra Joins RTI's Newly Formed Services Delivery Partner (SDP) Program to Provide Complete Industrial IoT Solution

SUNNYVALE, Calif. – September 14, 2015 – Real-Time Innovations (RTI), the Industrial Internet of Things connectivity platform company, today announced a global partnership with a fellow Industrial Internet Consortium (IIC) member, Tech Mahindra a specialist in digital transformation, consulting and business re-engineering. Tech Mahindra joins RTI's rapidly expanding Services Delivery Partner (SDP) program, designed to help companies capitalize on the growing Industrial Internet of Things (IIoT) market. RTI SDPs offer outsourced product development, system integration and domain-specific consulting across multiple industries.

RTI delivers IIoT solutions for customers spanning medical, energy, mining, air traffic control, trading, automotive, unmanned systems, industrial SCADA, naval systems, air and missile defense, ground stations and science.

Tech Mahindra is a leader in digital transformation delivering IIoT and IoT-based solutions for their customers. Tech Mahindra's expertise in Consulting and System Integration strengths directly align with RTI's core focus areas. Tech Mahindra will provide domain expertise and consultancy as well as development of user applications, systems software and data-center cloud services.

Combined efforts of RTI and Tech Mahindra will help companies meet the emerging and dynamic requirements of the IIoT market in key verticals including energy, automotive, avionics, healthcare and telecommunications across the globe.

"When we joined the Industrial Internet Consortium last year, we quickly recognized the immense opportunity of the Industrial Internet," said **Karthikeyan Natarajan, Global Head, Engineering and R&D, at Tech Mahindra**. "The IIoT is the next wave of innovation and is profoundly transforming the way field assets connect and communicate with the enterprise as a means to power faster business growth and deeper expansion. RTI is a leader in the industry. Their Connex DDS technology delivers the reliability, performance, scale and security our industrial IoT customers need. Our partnership will create an opportunity for both Tech Mahindra and RTI, enabling us to provide our customers complete solutions, combining the best-in-class products and services to realize the potential of the IIoT."

"Tech Mahindra is an ideal Services Development Partner for RTI," said **Stan Schneider, CEO at RTI**. "They are a global services powerhouse with expertise in many industries and can design, develop, deploy and operate full Industrial IoT systems. Our partnership combines our market-leading Connex DDS platform with Tech Mahindra's full-service, cost-effective global services resources."

Tech Mahindra's global services team is available to accept new projects with Connex DDS immediately. Customers using these services will have access to RTI's full Connex DDS product line and can leverage RTI's engineering and architectural services as needed.

About RTI

RTI provides the connectivity platform for the Industrial Internet of Things. Our RTI Connex[®] messaging software forms the core nervous system for smart, distributed applications. RTI Connex DDS allows devices to intelligently share information and work together as one integrated system. RTI was named "The Most influential Industrial Internet of Things Company" in 2014 by Appinions and published in Forbes. Our customers span the breadth of the Internet of Things, including medical, energy, mining, air traffic control, trading, automotive, unmanned systems, industrial SCADA, naval systems, air and missile defense, ground stations, and science. The total value of system designs that trust RTI for their fundamental architecture exceeds \$1 trillion. RTI is committed to open standards, open community source and open architecture. RTI provides the leading implementation of the Object Management Group (OMG) Data Distribution Service (DDS) standard. RTI is the world's largest embedded middleware provider, privately held and headquartered in Sunnyvale, California. For more details, visit <http://www.rti.com>
