## **Techno Electric & Engineering Co Ltd Wins Prestigious Contract from RailTel Corporation of India Ltd to Develop Edge Data Centers in 102 Cities Across India**

**New Delhi, 02 September, 2024:** Techno Electric & Engineering Company Limited (TEECL) is elated to announce that it has been awarded a contract to Design, Build, Finance, Operate, and Transfer Edge Data Centers (EDCs) by RailTel Corporation of India Ltd, a Public Sector Undertaking wholly owned by Indian Railways.

Techno Electric and Engineering Co. Ltd. will design, build, finance, operate, and transfer Edge Data Centers (EDCs) as a Business Associate of RailTel Corporation of India Ltd. in 102 cities across India over a twenty-year concession period extendable by five years.

*"This is a major milestone for us and a testament to our commitment to building digital infrastructure for the people of India. We are bullish about digital empowerment in India, and this contract with RailTel will allow us to fulfil the needs of a rapidly growing digital population. We are honoured to be RailTel's Business Associate and look forward to a long association," said Mr. Ankit Saraiya, Director of Techno Electric & Engineering Company Limited (TEECL).*

TEECL is at the forefront of revolutionizing digital infrastructure across India. With the establishment of Edge Data Centers, our data centre vertical is taking significant steps to enhance the digital experience and drive the widespread adoption of digital services among residents of rural and urban areas, thereby contributing to the country's Digital India mission.

Edge Data Centers in India will play a pivotal role in meeting the low latency and high bandwidth requirements that are essential for a range of applications, including digital skills, financial inclusion, digital health & literacy, AI, AR, Internet of Things (IoT), content delivery, and cloud gaming. This infrastructure will ensure that customers receive optimal digital experiences, driving innovation and progress in various sectors.

In addition, Edge Data Centers will offer major benefits to Internet Service Providers (ISPs) and Content Delivery Networks (CDNs) by reducing latency and enhancing speed. This capability will enable more efficient content delivery, improve network performance, and support the increasing demand for high-quality, real-time services across the country.

The development of Edge Data Centers in the country represents a significant step toward achieving the vision of a digitally empowered India. TEECL remains dedicated to driving progress with cutting-edge technology and strategic partnerships, facilitating digital transformation on a national scale.

RailTel's optic fiber cable (OFC) network covers important towns and cities in India, including rural areas, covering over 70% of India's population.

### **About Techno Electric & Engineering Company Limited (TEECL)**

TEECL (NSE: "TECHNOE") is India's leading power infrastructure company with over 40 years of experience in Engineering, Procurement & Construction (EPC), asset ownership, operations, and maintenance. The company has a proven track record in power generation, transmission, and distribution, having completed over 400 projects.

TEECL plays a vital role in shaping India's digital infrastructure through its data center vertical. Techno Data Center has a vision to have the largest footprint of data centers across India by FY2030 with an investment of USD 1 billion.
