We have reviewed these conversion adjustments made by the Holding Company's management. Our conclusion, in so far as it relates to the balances and affairs of this subsidiary located outside India is based on the report of other auditor and the conversion adjustments prepared by the management of the Holding Company and reviewed by us.

Our responsibility is to express a conclusion on the result based on our review.

2. The financial results for the quarter ended 30 June 2026 have been reviewed by the Audit Committee and approved by the Board of Directors of the Company at their respective meetings held on 11 August 2026.

3. The figures for the quarter ended 31 March 2026 are the balancing figures between the audited figures in respect of the full financial years and the published year to date reviewed figures upto the third quarter of the relevant financial year.

4. As per Ind AS 108 "Operating Segment", based on the quantitative and qualitative threshold, the management has not reported any segment for the quarter ended 30 June 2026.

5. During the previous years, the Company has executed and completed a project for Bengal Energy Limited (BEL) for a contract value of ₹ 1,550 millions. This project was completed in the year 2012 and was handed over to BEL as per the terms of the contract and is presently being used by them in their normal course of business. Total receivable outstanding as on 30 June 2026 pertaining to this project is ₹ 118.26 millions which is under arbitration proceedings. A new arbitrator was appointed by the Hon'ble High Court in October 2022. The processes relating to filing of 'Statement of Claims' and cross examination of witnesses, has been completed by both parties and arguments had commenced from 23 February 2026 which is expected to conclude by 12 August 2026. Further, it is expected that the Arbitrator will give us award before 15 November 2026, the last day of extension granted by the Hon'ble High Court, Calcutta, for disposal of the arbitration. The management, based on the legal assessment, believes that the aforesaid receivables are fully recoverable.

6. The Company was executing a project in Afghanistan till 15 August 2021 which has now been terminated for reasons attributable to Da Afghanistan Brishna Sherkat (DABS) due to change in political scenario in Afghanistan. As on 30 June 2026, total receivables from the project are ₹ 589.82 millions (including retention) included under trade receivables and other financial assets. DABS has confirmed that all outstanding payment as on 15 August 2021 for the goods supplied and services rendered prior and until this date will be paid by Asian Development Bank (ADB). ADB has hired the services of United Nations Office for Project Services (UNOPS) to approve the bills for payment after receipt of duly processed bill from DABS. On 19 December 2024, the Company had submitted an acknowledgement of, 'Verification and claim eligibility process' (VCEP), under which the verification of claim invoices and expenditure for works, goods and services performed and/or delivered is completed. During the year, the Company has received certain payments amounting to ₹ 20.68 millions and the management is confident of receiving outstanding balance in the due course as the outstanding invoices have been approved by the concerned authorities.

7. Renewable Energy Certificates (RECs) are a mechanism for incentivising producers of electricity from renewable energy sources. The relevant regulations have been put in place by the Central Electricity Regulatory Commission (CERC). Since the Company is in the business of generating renewable energy, it is eligible to receive RECs which can be sold in CERC approved power exchanges. The Company had 354,400 unsold RECs as at 31 March 2017, which were sold subsequently. Effective April 2017, as per the order of CERC, the floor price of REC was reduced from ₹ 1,500 per unit to ₹ 1,000 per unit. Applying the revised price retrospectively to RECs generated prior to April 2017 was challenged by the Company before the Hon'ble Supreme Court and based on its directions, the differential floor rate of ₹ 500 per unit was deposited by the buyer with CERC until further notice. Total receivable outstanding as on 30 June 2026 is ₹ 177.20 millions included under other financial assets towards differential rate of renewal energy certificates. The management is closely monitoring the status of the same and believes that since the amount has already been deposited with CERC by the buyers, there is no risk of default from the customers and thus based on the above facts as well as legal opinion obtained, management believes that the Company has high chances of succeeding on the matter and the aforesaid receivables are fully recoverable.

8. During the previous year, the Company has recognised Profit from discontinued operation amounting to ₹ 336.31 millions towards Late Payment Surcharge (LPS) from Sale of energy.

9. Figures for the previous period have been regrouped/ reclassified wherever necessary to confirm to current period's classification. The impact of such regroup/ reclassification is not material to the financial results.
