News Announcement

Tecpro Systems Limited Receives Orders Worth Rs. 791.5 million comprising (1) Rs. 513.0 million from SEPCO Electric Power Construction Corporation and (2) Rs. 278.5 million from NMDC Limited

Gurgaon, November 09, 2010: Tecpro Systems Limited (Tecpro), a key player in the material handling sector, providing turnkey solutions in material handling, coal and ash handling, Balance of Plant (BOP) and which undertakes Engineering, Procurement & Construction (EPC) contracts in the power sector, has announced that it has bagged orders worth Rs. 791.5 million. It has received an order worth Rs. 513 million from SEPCO Electric Power Construction Corporation, contractor for GMR's 4 x 350 MW Kamalanga Thermal Power Project in Dhenkanal District of Orissa, and an order worth Rs. 278.5 million for Fine Ore Conveyors from NMDC Limited, a Navratna Public Sector Enterprise.

Tecpro with high operational expertise in 3 core functional areas of any project i.e. ***Design & engineering, Manufacturing and Execution***, will undertake:

1. For SEPCO Electric Power Construction Corporation, the setting up of specialized High Concentration Slurry Disposal Systems (HCSD Systems) in which its Ash Handling Division holds special expertise.
2. For NMDC Limited, the Engineering, Procurement, Fabrication, Inspection, Packing, Supply, Transportation to Site and Storage of all Plant & Equipment including Electrics, Civil and Structural Works, Handling, Insurance, Erection Testing, Successful Commissioning and Performance Guarantee Tests for installation of New Fine Ore Conveyors 315N-1, 315N-2, BC-3B & 316A and associated facilities on Lump Sum Turnkey Basis at Bailadila Iron Ore Mine Kirandul Complex, District Dantewada, Chhattisgarh State.

Commenting on the development, Amul Gabrani, Vice-Chairman & Managing Director, Tecpro Systems said, *"We are delighted to announce these orders bagged by our Company. The Kamalanga project of SEPCO is a repeat order to the Ashtech Division coming on the back of the Balco project of SEPCO. We firmly believe that our*

Handling Division will see major traction going forward given the capacity addition in the Power sector by way of the Governments focus on Infrastructure in the 12th Five Year Plan. The material handling space is also on an upward growth trajectory and Tecpro is well positioned to capitalize on this opportunity. Our expertise, built over a decade of trust, has made us a preferred vendor for infrastructure companies."

About Tecpro Systems

Since the commencement of its operations in 2001, Tecpro has been instrumental in executing more than 1,000 material handling orders. The Company designs, engineers, manufactures, sells, commissions and services a range of systems and equipment to provide turnkey projects for the core infrastructure related sectors like power, steel, cement and other industries. In order to expand its scope of services, Tecpro integrated the ash handling business of Tecpro Ashtech Limited (TAL), previously known as Mahindra Ashtech Limited, with its existing material handling operations by way of amalgamation. Today, Tecpro has in-house capabilities for providing comprehensive solutions in material and ash handling systems.

The Company has ventured into various complimentary businesses across different divisions of the power sector with a vision to build an integrated business serving the sector. As per CEA records, Tecpro received the highest number of orders for coal handling plants during the Eleventh Five-Year Plan (2007-2012). The company also forayed into the EPC segment for thermal power projects in 2007, in which it managed the erection and commissioning of the boiler, turbine and generator (BTG) packages along with undertaking the engineering, design, supply and commissioning of other equipment and services. Leveraging its capabilities in coal and ash handling, the Company has also taken up turnkey BoP contracts in the thermal power generation sector. The business undertaken by the company broadly comprises four segments viz. material handling solutions, ash handling solutions, BOP/EPC contracts and other businesses such as supply of air pollution control equipment.
