(1) The Above is an extract of the detailed format of the Financial Result for the quarter ended June 30, 2020 filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 The full format of the financial Results is available on the Stock Exchange website, www.bseindia.com.
(2) The above financials has been prepared in accordance with the recognition and measurement principle laid down in Ind AS notified under section 133 of the Companies Act, 2013 read with relevant Rules Issued thereunder and other accounting principles generally accepted in India.
(3) COVID-19 outbreak was declared as pandemic by the World Health Organization on March 11, 2020. The Indian Government on March 24, 2020, announced a 21-days complete lockdown across the country, to contain the spread of the virus. The operations of the company, being engaged in the business of manufacturing and trading of Atmospheric Water Generators known as Air-Q-Water, are severely affected due to continuance of the lockdown in the area where the operating assets and registered office of the company are located. The lockdown is still imposed in the area till the date of submission of these results, resulting into constraints on the free movement of concerned corporate staff. The Company faced some business interruption on account of the lockdown. The Board is of the opinion that there has been no material change in the controls or processes followed in the closing of the financial statements of the Company. Given the dynamic nature of the pandemic situation, the carrying value of the Company's assets as at June 30, 2020, may be affected by the severity and duration of the outbreak, however the Company believes that it has taken into account all the possible impact of known events arising out of COVID 19 pandemic in the preparation of financial statements resulting out of fair valuation of these assets. However, the impact assessment of COVID 19 is a continuing process given its nature and duration. The Company will continue to monitor for any material changes to future economic conditions.

The full format of the Financial Results is available on the Stock Exchange website, www.bseindia.com.
(2) The above financials has been prepared in accordance with the recognition and measurement principle laid down in Ind AS notified under section 133 of the Companies Act, 2013 read with relevant Rules issued thereunder and other accounting principles generally accepted in India.
(3) COVID-19 outbreak was declared as pandemic by the World Health Organization on March 11, 2020. The Indian Government on March 24, 2020, announced a 21-days complete lockdown across the country, to contain the spread of the virus. The operations of the company, being engaged in the business of manufacturing and trading of Atmospheric Water Generators known as Air-O-Water, are severely affected due to continuance of the lockdown in the area where the operating assets and registered office of the company are located. The lockdown is still imposed in the area till the date of submission of these results, resulting into constraints on the free movement of concerned corporate staff. The Company faced some business interruption on account of the lockdown. The Board is of the opinion that there has been no material change in the controls or processes followed in the closing of the financial statements of the Company. Given the dynamic nature of the pandemic situation, the carrying value of the Company's assets as at June 30, 2020, may be affected by the severity and duration of the outbreak, however the Company believes that it has taken into account all the possible impact of known events arising out of COVID-19 pandemic in the preparation of financial statements resulting out of fair valuation of these assets. However, the impact assessment of COVID-19 is a continuing process given its nature and duration. The Company will continue to monitor for any material changes to future economic conditions.

 (3) COVID-19 outbreak was declared as pandemic by the World Health Organization on March 11, 2020. The Indian Government on March 24, 2020, announced a 21-days complete lockdown across the country, to contain the spread of the virus. The operations of the company, being engaged in the business of manufacturing and trading of Atmospheric Water Generators known as Air-O-Water, are severely affected due to continuance of the lockdown in the area where the operating assets and registered office of the company are located. The lockdown is still imposed in the area till the date of submission of these results, resulting into constraints on the free movement of concerned corporate staff. The Company faced some business interruption on account of the lockdown. The Board is of the opinion that there has been no material change in the controls or processes followed in the closing of the financial statements of the Company. Given the dynamic nature of the pandemic situation, the carrying value of the Company's assets as at June 30, 2020, may be affected by the severity and duration of the outbreak; however the Company believes that it has taken into account all the possible impact of known events arising out of COVID 19 pandemic in the preparation of financial statements resulting out of fair valuation of these assets. However, the impact assessment of COVID 19 is a continuing process given its nature and duration. The Company will continue to monitor for any material changes to future economic conditions.

- The above financials has been prepared in accordance with the recognition and measurement principle laid down in Ind AS notified under section 133 of the Companies Act, 2013 read with relevant Rules Issued thereunder and other accounting principles generally accepted in India.
- COVID-19 outbreak was declared as pandemic by the World Health Organization on March 11, 2020. The Indian Government on March 24, 2020, announced a 21-days complete lockdown across the country, to contain the spread of the virus. The operations of the company, being engaged in the business of manufacturing and trading of Atmospheric Water Generators known as Air-O-Water, are severely affected due to continuance of the lockdown in the area where the operating assets and registered office of the company are located. The lockdown is still imposed in the area till the date of submission of these results, resulting into constraints on the free movement of concerned corporate staff. The Company faced some business interruption on account of the lockdown. The Board is of the opinion that there has been no material change in the controls or processes followed in the closing of the financial statements of the Company. Given the dynamic nature of the pandemic situation, the carrying value of the Company's assets as at June 30, 2020, may be affected by the severity and duration of the outbreak; however, the Company believes that it has taken into account all the possible impact of known events arising out of COVID 19 pandemic in the preparation of financial statements resulting out of fair valuation of these assets. However, the impact assessment of COVID 19 is a continuing process given its nature and duration. The Company will continue to monitor for any material changes to future economic conditions.
