Tiger Logistics Strengthens its Presence in Western India as Solar EXIM Demand Accelerates

New Delhi, India – February 23, 2026 – Tiger Logistics, a leading international logistics company in India, has announced a strategic expansion of its Western India operations, deepening its presence in Gujarat, one of the company’s strongest growth markets for Solar EXIM (Export-Import).

Gujarat remains a critical node in the solar supply chain, accounting for **47% of India’s module manufacturing capacity** and **49% of cell production**. With existing branches in Gandhidham and Ahmedabad, Tiger Logistics has strengthened its position within this high-volume corridor with the **appointment of a General Manager – Gujarat Region** to reinforce operational discipline, enhance customer proximity, and accelerate on-ground responsiveness across key accounts.

Tiger Logistics’ renewable vertical, **TiGreen**, currently handles **up to 2,000 TEUs of solar container movements per month**, with the **majority of this volume coming from clients in the Gujarat region**. With strong client pipelines and the sector’s ongoing expansion in Gujarat, this volume is **set to increase by 40–45% over the next year**, supported by deeper regional capability and the company’s strengthened leadership structure.

Adding to this momentum, India’s solar manufacturers have announced **plans to build nearly 94.5 GW of additional AIMM-approved cell manufacturing capacity** over the next few years. This anticipated opportunity is aligned with central schemes such as the **Pradhan Mantri Surya Ghar Muft Bijli Yojana**, which has renewed nationwide interest in rooftop adoption and is expected to generate substantial long-term component demand and EXIM flows.

For Tiger Logistics, with its specialized renewable energy logistics vertical and proven handling capabilities, this represents a significant pipeline of future business opportunities.

Commenting on the development, Mr. Harpreet Singh Malhotra, CMD of Tiger Logistics (India) Limited, said, *"Our Western India expansion is driven by clear market visibility and the scale at which our solar clients are growing in the state. Enhanced leadership and stronger operational depth in Gujarat will ensure that we can offer sharper responsiveness, tighter process control, and the long-term reliability our customers expect."*

The strengthened Gujarat operations reflect Tiger Logistics’ continued commitment to building a capability-led, future-ready logistics network tailored to the country’s most dynamic and fast-scaling supply chains.

About Tiger Logistics (India) Limited (BSE: 536264/ NSE: TIGERLOGS):

Tiger Logistics India Limited, a leading international logistics company and solutions provider listed on NSE and BSE, covering freight forwarding (air & ocean), defence & project logistics, transportation, and customs clearance. The company also launched its proprietary freight booking and management platform, "FreightJar", in 2023 to bring accessibility to competitive freight rates for SMEs/MSMEs and seamlessness to the freight booking and management journey. With a strong presence across the world, Tiger Logistics boasts over 25 years of experience in the automotive, renewable energy, engineering goods, yarns & textiles, pharmaceutical, consumer durables, commodities, building materials, defence & aerospace and FMCG industries, among others.

Founded in 2000 in response to a need for a reliable, high-principled player in the Indian logistics scenario and a goal to be a one-stop shop for international logistics, Tiger Logistics works with agents & partners across the board to deliver reliable, efficient, and timely cargo movement around the world. With an asset-light model and one-stop solution for customers engaged in international trade, Tiger Logistics carves tailored solutions for its customers to manage their end-to-end logistics requirements, with cost innovation and personalized service at its core by working as a logistics partner instead of just a vendor.
