10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

TII has integrated the 3R principles (Reduce, Reuse & Recycle) into its waste management strategy to minimize environmental impact. Across all business units, safe and effective waste handling practices are in place, supported by a robust Environmental Management System (EMS).

Key measures include:

- Operational control procedures for waste segregation, storage, and safe disposal.
- Employee training to ensure proper identification and disposal of biodegradable, non-biodegradable, and hazardous waste.
- Authorized waste handlers manage the recycling and co-processing of segregated waste.
- Regulatory compliance – Hazardous waste authorizations are obtained from the State Pollution Control Boards to ensure safe and legal disposal.
- Innovative waste reduction initiatives – e.g., Pedaling Dryer technology to reduce moisture in sludge waste, leading to lower hazardous waste output.

TII remains committed to enhancing circular economy practices and reducing its environmental footprint through continuous process improvements and sustainable waste management solutions.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

Our reasonable assurance engagement was with respect to the year ended March 31, 2026 information only unless otherwise stated and we have not performed any procedures with respect to earlier periods or any other elements included in the BRSR and, therefore, do not express any conclusion thereon.

In connection with our assurance on the ISI, our responsibility is to read the other information identified above when it becomes available, and in doing so, consider whether other information is materially inconsistent with the ISI, or our knowledge obtained in the assurance, or otherwise appears to be materially misstated.

Criteria

The criteria used by the company to prepare the Identified Sustainability Information is based on the International Framework, Global Reporting Initiative (“GRI”) Standards, Greenhouse Gas (GHG) protocol and National Guidelines on Responsible Business Conduct (“NGRBC”). In addition, Business Responsibility and Sustainability Reporting (BRSR) as per Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 was also considered while developing this Report.

Reporting Period: April 1, 2025 to March 31, 2026

Boundary

Boundary of the report covers the Company’s operations in India.

Management’s Responsibility

The Company’s management is responsible for selecting or establishing suitable criteria for preparing the Sustainability Information, taking into account applicable laws and regulations, if any, related to reporting on the Sustainability Information, Identification of key aspects, engagement with stakeholders, content, preparation and presentation of the Identified Sustainability Information in accordance with the Criteria. This responsibility includes design, implementation and maintenance of internal control relevant to the preparation of the BRSR and the measurement of Identified Sustainability Information, which is free from material misstatement, whether due to fraud or error.

Inherent limitations

The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measures and measurement techniques and can affect comparability between entities.

Our Independence and Quality Control

We have maintained our independence and confirm that we have met the requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India and have the required competencies and experience to conduct this assurance engagement.

The firm applies Standard on Quality Control (SQC) 1, “Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements”, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

Our Responsibility

Our responsibility is to express a reasonable assurance conclusion on the Identified Sustainability Information based on the procedures we have performed and evidence we have obtained.

We conducted our engagement in accordance with the Standard on Sustainability Assurance Engagements (SSAE) 3000, “Assurance Engagements on Sustainability Information”, issued by the Sustainability Reporting Standards Board of the Institute of Chartered Accountants of India. This standard requires that we plan and perform our engagement to obtain reasonable assurance about whether the Identified Sustainability Information is prepared, in all material respects, in accordance with the Criteria. A reasonable assurance engagement involves assessing the risks of material misstatement of the Identified Sustainability Information whether due to fraud or error, responding to the assessed risks as necessary in the circumstances.

The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, evaluating the appropriateness of quantification methods and reporting policies, analytical procedures and agreeing or reconciling with underlying records.

Given the circumstances of the engagement, in performing the procedures listed above, we:

- (i) Reviewed the approach to stakeholder engagement and materiality determination process and its outcomes as brought out in the Report.
- (ii) Conducted interviews with selected representatives responsible for management of sustainability issues and implementation of the NGRBC Principles and carried out reviews of selected evidence to support topics and claims disclosed in the Report. We were free to choose interviewees and interviewed those with overall responsibility to deliver Company's overall sustainability objectives.
- (iii) Carried out Onsite verification of sustainability performance data and sample evidence related to the sampled offices of the Company to review the processes and systems for aggregating site-level sustainability information, as well as overall aggregation and consolidation of data from sites by the sustainability team at the Corporate Office at Chennai in Tamil Nadu.
- (iv) Reviewed the process of reporting on BRSR requirements including Section A: General Disclosures, Section B: Management and Process Disclosures, and Section C: Principle-wise Performance Disclosures.
- (v) Carried out an assessment of the processes for gathering and consolidating performance data related to the NGRBC Principles and, for sample, checked the processes of data consolidation to assess the Reliability and Accuracy of performance disclosures reported based on BRSR requirements.
- (vi) An independent assessment of the reports of non-financial information against the requirements of BRSR and the guidance notes.

We believe that the evidence obtained is sufficient and appropriate to provide a basis for our reasonable assurance conclusions.

Exclusions:

Our assurance scope excludes the following and therefore we do not express a conclusion on the same:

- Operations of the Company other than those mentioned in the Identified Sustainability Information.
- Aspects of the BRSR and the data/information (qualitative or quantitative) other than the Identified Sustainability Information.
- Data and information outside the defined reporting period i.e. March 31, 2026.
- The statements that describe expression of opinion, belief, aspiration, expectation, aim, or future intentions provided by the Company.
- Mapping of the Report with reporting frameworks other than those mentioned in Criteria above.

While we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls.

Opinion

Based on the procedures performed as above, and the evidences obtained, and the information and explanations given to us along with the representation provided by the management and subject to inherent limitations outlined elsewhere in this report, in our opinion the Identified Sustainability Information for the year ended March 31, 2026 (as stated under "Identified Sustainability Information") are prepared in all material respects, in accordance with the criteria.

Restriction on use

Our Reasonable Assurance report has been prepared and addressed to the Board of Directors of the company at the request of the company solely, to assist the company in reporting on Company's sustainability performance and activities. Accordingly, we accept no liability to anyone other than the company. Our Deliverables should not be used for any other purpose or by any person other than the addressees of our Deliverables. The firm neither accepts nor assumes any duty of care or liability for any other purpose or to any other party to whom our Deliverables are shown or into whose hands it may come without our prior consent in writing.
