Nippon Paint inks MoU with Snapdeal

| NT Bureau |  
Chennai, Feb 5:

Nippon Paint India announced that it has signed a long-term partnership with leading e-commerce portal Snapdeal. Under the agreement, Nippon Paint India's complete range of aerosol spray paint. Pylac 1000 Rainbow series will be available on Snapdeal at a special price for immediate purchase. According to a press release, the Pylac 1000 Rainbow series is an easy-to-use, fast drying product that can be used on multiple surfaces like wood, plastic or metal. The Pylac 1000 range will be available at an 'exclusive-on-Snapdeal' price of Rs 199.

President, Nippon Paint India - Automotive Refinishes & Wood Coatings, Sharad Malhotra said, 'We are excited to be one step closer to our consumers through this arrangement with Snapdeal. Car users and enthusiasts can now enjoy easy availability and quick delivery of our Pylac products. We are hoping to capture a substantial chunk of the fast-growing organized car care solutions market through the convenience of e-commerce portals.'

50% affordable homes are unsold in 9 cities: Report

Proptiger.com reported that 50 per cent of unsold housing stocks in the nine major residential markets in India are in the affordable segment. According to a data available with PropTiger.com, markets covered in the analysis had a total unsold stock consisting of 7.75 lakh units at the end of the calendar year 2019. Of this, close to 3.90 lakh units were affordable homes. Various measures announced by the government to boost sales of affordable property in the recent past have not yet had the desired impact but things are slowly beginning to stabilise for the category, it found.

In its report 'Real Insight Q3FY20', Proptiger.com, that is owned by Elara Technologies, which also owns housing.com and makaan.com, reported that there has been a 14 per cent annual decline in unsold stock in this category. At the end of 2018, developers were sitting on an unsold stock consisting of 452,850 affordable homes. 'In the Union Budget 2020, finance minister announced measures that would revive overall consumer sentiment that would encourage buyers to buy affordable homes,' said Group CEO, Housing.com, Makaan.com & PropTiger.com, Dhruv Agarwala.

NEW FROM AUDI

**Audi announced the launch of its fourth generation flagship sedan - the Audi A8 L 55 TFSI in India. The Audi A8 L has a 3.0 L petrol engine, generates 340hp and 500 Nm of torque propelling the car from 0-100 in 5.7 seconds. It provides the benchmark for 'Vorsprung durch Technik' - with a new design language, an innovative touchscreen operating concept, host of luxury features and infotainment options. Price starts at Rs 1.56 crore onwards.**

SEBI seeks reply from Franklin Templeton

Mumbai, Feb 5 (PTI):

Markets regulator Sebi has sought a reply from Franklin Templeton after the fund house's mark-down of its investment in second-largest telecom firm Vodafone Idea Ltd (VIL) that led to an erosion of investor wealth. However, Sebi Chairman Ajay Tyagi parried questions on whether such a move is illegal or if it hurts the broader cause of protection of investors' interests.

Following the Supreme Court ruling on the adjusted gross revenue (AGR) matter, which resulted in a due of Rs 53,000 crore on the telco, the fund house had marked down its investment value to zero, resulting in a correction of up to 7 per cent in net asset value for six of its schemes.

Maruti aims to sell 1 mn environment-friendly cars

◆ Plans to increase output of 'green vehicles' in couple of years

Noida, Feb 5 (PTI):

The country's largest car maker Maruti Suzuki India (MSI) said it aims to manufacture and sell another million 'green vehicles' in the next couple of years as it accelerates its eco-friendly mobility drive. Kicking off the Auto Expo here, MSI Managing Director and CEO Kenichi Ayukawa said the company has already sold a million green cars, comprising CNG and smart hybrids in the last decade. Showing its concept Futuro-e, an electric SUV, he said the car is being shown for the first time globally here, reflecting the importance of Indian customers in Suzuki's business.

'Our theme at the Auto Expo 2020 - Mission Green Million - explains our commitment towards bringing affordable and sustainable green technologies for India. We aim to manufacture and sell the next million green vehicles at a much faster

pace, over the next couple of years,' Ayukawa told reporters here. The next million green vehicles from company will include a range of technologies and power trains such as CNGs, smart hybrids, strong hybrids and electric vehicles, he added.

'We are banking on customers to accept and upgrade to new technology including the electrified powertrain,' he said adding mass accept-

ance will give original equipment manufacturers (OEMs) desired volumes to bring in localisation benefits to customers. On the concept Futuro-e, he said, the electric SUV-coupe which is defined by its bold and sporty characteristics has been conceptualised and designed in India by the company. 'The Concept Futuro-e has the potential to redefine next generation SUV design language in India,' Ayukawa

ROAD AHEAD

**'The next million green vehicles from company will include a range of technologies and power trains such as CNGs, smart hybrids, strong hybrids and electric vehicles'**

Reiterating the company's commitment to CNG technology, he said, 'In the coming times we are committed to expand our CNG portfolio to include many more models.' At present, eight of the company's most popular models are offered with CNG option, he added. 'We have sold over six lakh factory-fitted CNG cars till date,' Ayukawa said. On smart hybrids, he said five models from the company have this option. With India moving to BSVI emission norm from April this year, Ayukawa said MSI has stopped manufacturing BSIV vehicles and 'all our production is now

BSVI compliant'. 'Our BSVI range has sold almost 6 lakh vehicles across the country,' Ayukawa said.

Stressing that the company is committed to India's national agenda of safe, sustainable and environment friendly products Ayukawa said, 'We strongly believe that mass acceptance is crucial for the success of any new technology and continuity of business.'

Commenting on market conditions, he said the starting of the new decade is a little muted and the industry is under pressures of high acquisition and low demand. He, however, said that decade will be marked with new trends in automobile sector with customers seeking unique mobility solutions, futuristic innovations, eco-friendly technologies and feature rich products. 'Coming times will see the industry elevated in terms of technology, design maturity and much more. Volumes will grow manifold,' Ayukawa said.

FM urges industries to partner for growth

◆ 'Shun hesitation & work along with government'

New Delhi, Feb 5 (PTI):

Finance Minister Nirmala Sitharaman exhorted the industry to shun hesitation and be a partner in driving growth, saying the government has already initiated several measures and is willing to take more steps. The government has already reduced corporate tax rate, removed Minimum Alternate Tax (MAT) and abolished dividend distribution tax (DDT), she said while addressing the industry leaders here. The approach has been 'we shall spend on asset creation and it is the cascading effect of this spend which is going to help the industry. So we expect you to be... the engine to pull the economy forward,' the finance minister said.

She added that 'in today's conditions, it cannot be just the govt spending which can pull this economy towards that growth which all of us want. I strongly believe industry today will have to come out of that hesitation, which you held and right-

ly in your mind. But I think it's time now to come out of the hesitation. I called it self-doubt sometime back'.

Sitharaman signalled that the government is willing to do more in terms of necessary measures to prop up the economy. 'We have done what whatever little we can, we are not closing the doors, we are still ready to do and even much more. But I want it to be a meaningful intervention from the government rather than rush to do something which may not be necessary at all for the government,' she said. Talking about the measures taken to help the industry, the minister listed some of them like corporate tax rate cut and removal of Minimum Alternate Tax (MAT) and Dividend Distribution Tax (DDT). She said, 'It is now time for all of us to pull our weight along, make sure that the economy has support of each one of us, where each one will have to become the engine for pulling this economy up. After all, the spirit of enterprise is yours, we are here to facilitate.'

Coronavirus infects Auto Expo & travel sector

◆ Businesses take measures to combat deadly disease

New Delhi, Feb 5 (PTI):

The deadly coronavirus has cast a shadow on India's flagship motor show Auto Expo, while other sectors including travel and electronics manufacturing are keeping a close watch to avoid any possible impact of it on their businesses. Automobile industry body Society of Indian Automobile Manufacturers (SIAM) said all Chinese companies participating at the expo have confirmed that their exhibit area would be manned by their Indian employees.

In addition, auto component makers body ACMA said Chinese participants at the components show of Auto Expo are unable to travel to India due to the outbreak of coronavirus in China, even as around 30 companies from there have con-

firmed that their stand would be managed by their Indian counterparts in their absence.

Meanwhile, restrictions on travel between China and India has impacted bookings and the travel industry is cautiously watching the situation, players said on Tuesday. India on Sunday announced temporary suspension of e-visa facility for Chinese travellers and foreigners residing in the neighbouring country and issued a fresh advisory saying anyone with travel history to China since January 15 can be quarantined. 'With travel to main-

land China and even Hong Kong severely restricted for days, the travel bookings had taken a massive hit,' MakeMyTrip co-founder and CEO Rajesh Magow said.

With the mobile industry importing an estimated Rs 95,000 crore worth of components annually, a portion of which comes from China, handset manufacturers are waiting to see if the shuttered factories of suppliers reopen next week. So far, however, there has been minimal disruption, as companies typically tend to stock mobile components and parts ahead of Chinese New Year holidays. 'We will watch the situation daily. If the problem persists beyond February 10, then we will have a real problem at hand,' India Cellular and Electronics Association (ICEA) Chairman Pankaj Mohindroo said.

Renault unveils AMT version of Triber

Noida, Feb 5 (PTI):

French car maker Renault unveiled the AMT version of its subcompact multi-purpose vehicle Triber at the Auto Expo here.

The AMT version, which is set to be launched in the second quarter of the year, was unveiled by Fabrice Cambolive, senior vice president and chairman of Africa-Middle-East-India-Pacific Region for Renault Group along with Renault India Chief Executive Officer and Managing Director Venkatram Mamillapalle. Triber has been a volume driver for Renault in the domestic market with the company selling over 28,000 units of the seven-seater car since its launch in India in August last year.

No plan to hike Kona EV prices: Hyundai

Noida, Feb 5 (PTI):

Hyundai Motor India is not planning to hike prices of electric model Kona, despite expectations of a rise in the cost of the vehicle with the government proposing to increase customs duty on imported EVs, a top company official said. The automaker, which is looking to drive in a mass market electric vehicle (EV) over the next two-three years, said it will look to increase localisation to keep the price of the model under check to offset impact of increased customs duty.

'Currently we are importing some parts of the Kona Electric from South Korea. As per the new Budget announcement, the import duty will go up by 5 per cent... We understand the government's push is towards Make in India so we will do more towards localisation of the product here,' Hyundai Motor India (HMI) Managing Director and CEO SS Kim told PTI. He admitted that the import duty increase will lead to rise in cost of the vehicle but 'we will not pass it over to the customer and try to mitigate the impact

by localising more and optimising our processes'. Kona Electric is currently priced at Rs 23.71 lakh (ex-showroom Delhi). As announced in Budget 2020-21, import duties on fully imported commercial EVs will go up to 40 per cent from 25 per cent, while the same on semi knocked-down electric passenger vehicles will go up to 30 per cent from 15 per cent.
