### Key Highlights:

- ✓ Despite the tense geopolitical environment caused by tensions in West Asia and fluctuation in input cost (mainly polymer prices) the Company has maintained volume growth of 12.1%.
- ✓ We operate in an institutional business model serving leading industries such as Specialty Chemicals, FMCG, and Pharmaceuticals, with long-term customer relationships and mutually agreed pricing mechanisms that enable the pass-through of input cost fluctuations, helping maintain margin stability.
- ✓ As part of its sustainability initiatives, we plan to source approximately 75% of its power requirements through solar energy with an estimated investment of ~₹5 Cr, generating an annual savings of ~₹4 Cr, and achieving payback in under 18 months, further enhancing the ROE.
- ✓ TPL (including its wholly owned subsidiary) plans to expand their facility in Bhuj (Gujarat) manufacturing industrial packaging products, including IBCs with an estimated investment of ~₹20 Cr., to support future growth and market demand and expected to commence operations by Q3 FY27.

***Management Commentary:*** *"TPL Plastech Ltd reported a resilient start to FY27, supported by stable demand across the chemicals, specialty chemicals, and pharmaceutical sectors. For the quarter ended 30 June 2026, volumes grew 12.1% YoY and EBITDA growth of 12.9%, highlighting operational consistency. The global industrial packaging market is expected to reach approximately USD 97 billion by 2031, growing at a CAGR of 5-6%, driven by increasing adoption of lightweight and recyclable IBC solutions across chemicals, food processing, and pharmaceuticals.*

***Consolidation & Cost Reduction:*** *The company has been working on consolidation of products and facilities, along with reducing manpower and power costs, supported by automation, re-engineering of mould and machinery, and working capital optimization to enhance earnings and capital efficiency.*

***Growth Plan:*** *Further, the Board has outlined a growth target of ~15% p.a. in volumes over the coming years, subject to fluctuations in key input costs. These trends position TPL Plastech Ltd well to capitalize on emerging opportunities and sustain long-term growth through its technology-driven packaging solutions."*
