Leadership Comment:
Mr. Ashwin Muthiah, Vice Chairman – TPL and Founder Chairman, AM International, Singapore, said: "The first quarter has delivered a strong performance, with both sales and profitability showing significant growth, with profitability more than doubling compared to the corresponding period last year. This performance reflects the benefits of our continued focus on cost-led operational efficiencies, improved capacity utilization and our ability to respond to higher customer demand.

Despite the evolving geopolitical situation in the Middle East resulting in increased input cost, the lower import pressures has supported the quarter's overall performance. We remain focused on strengthening our competitiveness while developing carbon-neutral products and solutions that address the evolving sustainability needs of our customers."
