Sub: Intimation of Investor Presentation for Analysts/Institutional Investor Meeting to be held on March 19, 2025.

This is in continuation to our letter dated March 12, 2025 wherein we had informed regarding meetings scheduled with Analysts/Institutional Investors on Wednesday, March 19, 2025.

Pursuant to Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, please find enclosed herewith the Investor Presentation which will be used for the said meeting.

This is for your information and records.

Thanking you.

Yours faithfully,
For Tracxn Technologies Limited

Private Market Intelligence Platform

Tracxn Overview

Tracxn is a Data & Software platform for the Private Markets globally

We work with Venture Capital Firms, Private Equity Firms, Investment Banks - as well as M&A & Innovation teams of large Corporates

Global Platform, customers span 50+ countries

Disclaimer

By attending this presentation including the commentary by the Company management and the transcript of the same, together (“Presentation”) and/or accepting a copy of it, you agree to be bound by the foregoing limitations and conditions:

This Presentation is prepared by Tracxn Technologies Limited (“Company”) solely for information purposes and does not constitute an offer, solicitation, recommendation, or invitation to purchase or subscribe for any securities and shall not form the basis of or be relied on in connection with any contract or binding commitment whatsoever. This Presentation does not consider, nor does it provide any tax, legal, or investment advice or opinion regarding the specific investment objectives or financial situation of any person. This Presentation may not be copied, reproduced, summarised, disseminated, or redistributed to any other person in any manner whatsoever without the Company’s prior consent in each instance. This Presentation has not been and will not be reviewed or approved by any regulatory authority or by any stock exchange in India. No rights or obligations of whatsoever nature are created or shall be deemed to be created by the contents of this Presentation.

The Company, its affiliates, shareholders, directors, employees, or advisors do not make any representation or warranty, expressed or implied, and no undue reliance should be placed on the accuracy, fairness, or completeness of the information contained in this Presentation. The Company, nor any of its advisers or representatives accepts any liability whatsoever for any actual or consequential loss or damages howsoever arising from the provision or use of any information contained in this Presentation. The information contained in this Presentation should be considered in the context of the situations prevailing at the time when the Presentation was made and are to be read in conjunction with the company’s financial results, uploaded on the Stock Exchanges where the Company is listed. The Company expressly disclaims any obligation or undertaking to supplement, publicly amend or disseminate any updates or revisions to any information/statement contained in the Presentation to reflect any change in events, conditions, or circumstances including economic, regulatory, market, and other developments on which any such information is based.

This Presentation may contain, words or phrases that are forward-looking statements that involve risks and uncertainties and are based on certain beliefs, plans, and expectations of the Company. Although the Company believes that such forward-looking statements are based on reasonable assumptions, it can give no assurance that such expectations will be met. Actual future performance, outcomes, and results may differ materially from those expressed in forward-looking statements because of several risks, uncertainties including but not limited to our ability to implement our strategy successfully, the market acceptance of and demand for our offering, technological changes, volatility in global capital markets, pandemic and international and domestic events having a bearing on the Company’s business. You must not place undue reliance on these forward-looking statements, which are based on the current views of the Company’s management.

The operating metrics reported in this Presentation are calculated using internal Company data based on the operational activities. While these numbers are based on what the Company believes to be reasonable estimates for the applicable period of measurement, there are inherent challenges in measuring across some operational metrics. The methodologies used to measure these metrics require considerable judgment and are also susceptible to an algorithm or other technical errors. The Company systematically reviews its processes for calculating these metrics from time to time and may discover inaccuracies in the metrics or may make adjustments to improve their accuracy, which can result in adjustments to previously disclosed metrics. In addition, the Company metrics may differ from estimates published by third parties due to differences in methodology.

To facilitate understanding, some non-GAAP metrics are used and financial amounts are converted from ₹ Lakhs into ₹ Crores for this Presentation hence, there could be some totalling anomalies in the numbers.

Our speakers today

Neha Singh

Chairperson and Managing Director

- **IIT Bombay** (received Silver Medal from President of India Mrs. Pratibha Patil)
- MBA from **Stanford GSB**
- Consultant at **BCG**
- Investor at **Sequoia Capital** (investing in private markets)
- Awarded **Fortune 40under40**, Outstanding Women by Outlook Business

Abhishek Goyal

Vice Chairman and Executive Director

- **IIT Kanpur** (top 100 rankers in IIT JEE)
- Started career at tech firms **Yahoo** (part of AI team) and **Amazon**
- Investor at **Accel Partners**, part of the deal team which wrote the first cheque in Flipkart
- Awarded **Fortune 40under40**, Livemint's - 40 who matter in Indian Startup Ecosystem

Prashant Chandra

Chief Financial Officer

- BTech from **IIT Kanpur**
- MBA from **IIM Lucknow**
- Prior to joining Tracxn, Prashant was the CFO of a startup which was backed by **Accel Partners** and **Tiger Global**
- Has been with Tracxn since the beginning, for the last 10 years

Robust Technology Platform

Wide range of business and workflow tools –

Inbuilt CRM tool, custom dashboard builder, tools for sourcing, tracking companies, portfolio tracking, API support, browser extensions, ability to save searches and provide alerts and export tools

Enterprise grade support – for customer queries with personalized support over chat, email and instant messaging applications

Hosted on cloud servers – ensures minimum downtime

Advanced security – in-built security features provided by the cloud infrastructure provider

Virtual private cloud – allows to establish a secure internal network & a safe gateway to enable communication of internal resources

Industry grade HTTPS – for encrypted communication over the internet

Periodic checks – tools to periodically check on potential security threats

Scalable backend framework – based on open source technologies

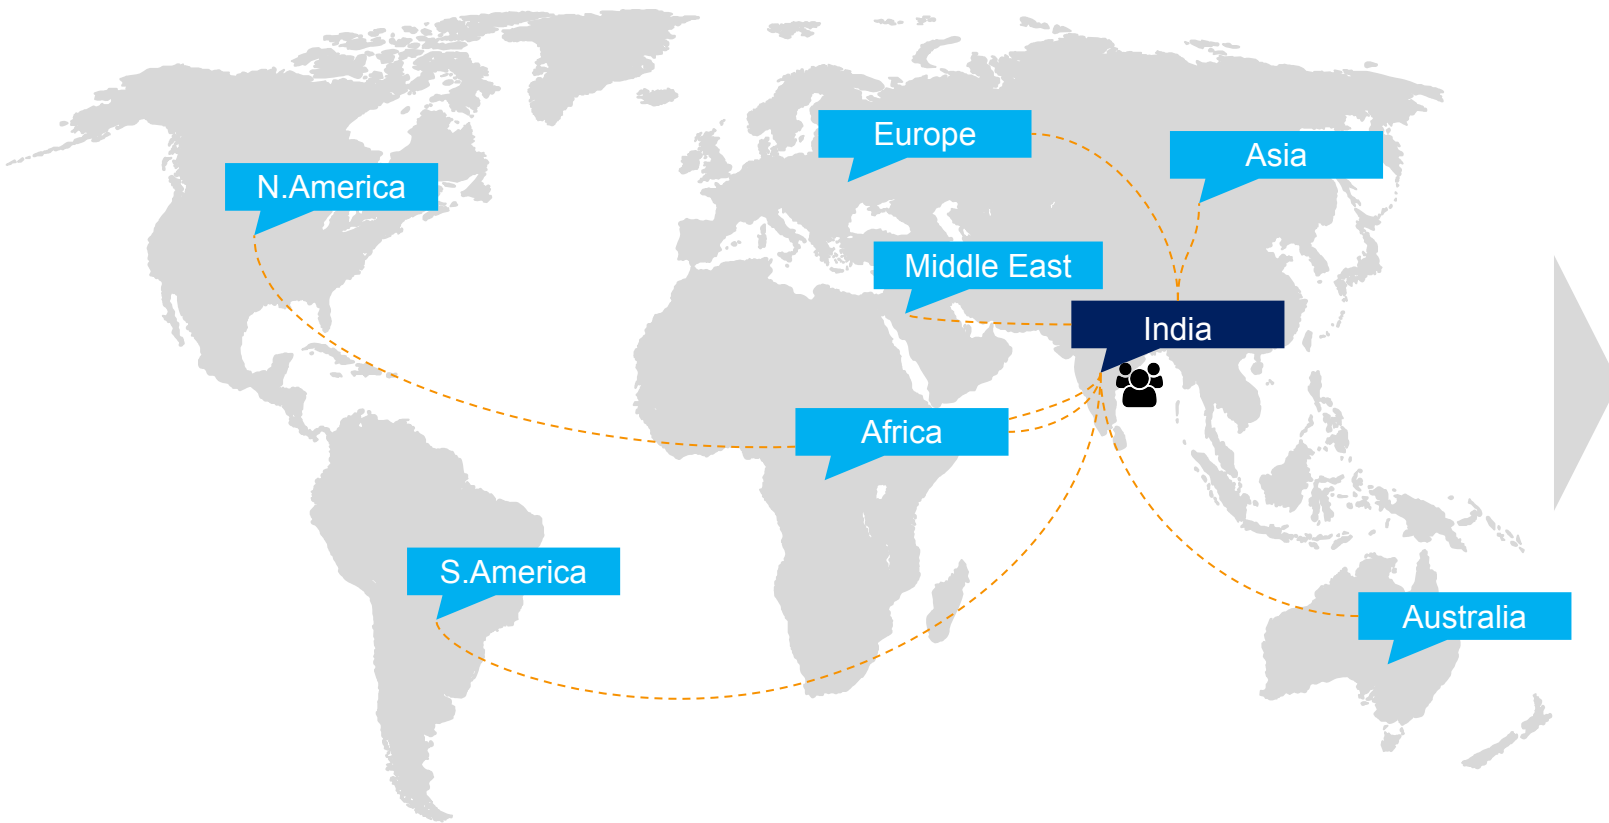

Automated – based on web crawling and data engine to track millions of web domains, track data points across digital footprint of entities and add several companies to database

Flexible platform – aids launching of new features

In-house data mining engine – automate discovery of new-age companies by tracking 820 mn+ domains across emerging technology sectors and sector classification of entities tracked

Multiple products introduced on platform since inception – soonicorn coverage, personalized dashboards, Tracxn Score, live chat, and others

Significant cost advantages from India-based operations

Significant cost advantage due to **make-in-India**. Especially:

- **Data-production & technology platform** is built from India
- **Global sales** happens from India (sales & support teams work across all time zones)
- Very efficient content-driven **customer acquisition flywheel**

These give us a significant and long-lasting cost advantage

(2) Cash & Cash equiv. = Cash & Cash equiv., Investments & FDs, Security Deposit towards listing in FY23, FY24 and 9MFY24

Private Markets - Quick snapshot (1/2)

Global Tech Funding

(in USD Bn.)

India Tech Funding

(in USD Bn.)

GLOBAL TECH FUNDING:

CY24 had 2nd lowest deal value in last the 7 years and lowest deal volume in the last 10 years

Unicorns created globally

Unicorns created in India

LATE-STAGE FUNDING: (proxy # new unicorn rounds)

CY24 was 2nd lowest in the last 7 years

Private Markets - Quick snapshot (2/2)

Recovery in Global M&A deal value and IB fees

Global M&A

(in USD Tn.)

GLOBAL M&A:
CY24 was second lowest in 10yr

M&A advisory fees

(in USD Bn.)

IB M&A ADVISORY FEES:
CY24 saw some recovery

Q3 FY25: Greenshoots (1/5)

Accelerated growth in India due to vertical sales teams

Revenue split by India and International
(in INR Cr.)

	FY24	YoY %	9M FY25	YoY %
India Revenue	28.4	14%	24.7	16%
International Revenue	54.3	2%	38.6	-6%
Total Revenue	82.8	6%	63.3	1%

India **growth accelerated** from 14% in FY24 to **16% in 9M FY25** - primarily due to the growth initiatives including launch of vertical teams.

Plan to **replicate the same strategy internationally** - scale the vertical teams to top countries.

Q3 FY25: Greenshoots (2/5)

Continued high overall volume growth

Customer Accounts (#)

Q3 FY25 addition highest
due to various growth initiatives

Customer Accounts - Net Addition

Q3 FY25: Greenshoots (3/5)

Deferred revenue also saw good expansion

Deferred Revenue (in INR Cr.)

Q3 FY25: Greenshoots (4/5)

Volume growth starting in international customer segments as well

Revenue split by India and International, & Account growth
(in INR Cr.)

	FY24			9M FY25		
	FY24 Revenue	Revenue YoY %	#Accounts YoY%	9M FY25 Revenue	Revenue YoY %	#Accounts YoY%
India	28.4	14%	20%	24.7	16%	55%
International	54.3	2%	-5%	38.6	-6%	21%
Total	82.8	6%	7%	63.3	1%	39%

In India, the volume growth accelerated from 20% YoY in FY24 to 55% YoY in 9M FY25 which subsequently saw revenue growth accelerate.

Similarly, we are seeing volume growth starting to happen in international customers.

Q3 FY25: Greenshoots (5/5)

Platform Engagement continues to increase

Trend of platform usage metrics in terms of # of Exports and Myanalyst queries

Customers' platform engagement continues to increase - customer exports & myanalyst queries have grown ~2X over the last 2 yrs

Growth Initiatives

We have been investing across various growth initiatives - spanning across sales, marketing and account expansion. The following slides give an overview of some of the recent initiatives where we are seeing good results and hence expect further acceleration to happen.

Select Recent Growth Initiatives

Organic Search Traffic* (in millions)

1 Scaling Organic Traffic & Inbound Leads Pipeline

- We have built a large organic inbound traffic funnel, & it continues to increase
- **Over 16 Million** visits in the first 9M of FY25
- Current annualized run-rate of **20 Million+** which is more than double of that 2 yrs back

Note: (*) Source: Search Console & Internal Estimates

Select Recent Growth Initiatives

#New Tracxn Lite Signups¹

#Monthly Active Users²

Note: (*) For the partial period since the launch of Tracxn Lite in Dec'23.

(1) Does not include ~2L old unpaid users migrated to Tracxn Lite, (2) Includes users from organic signups and old unpaid users that were migrated to Tracxn Lite

2 Tracxn Lite

- Had launched **Tracxn Lite** ~last year for **PLG** (Product-Led Growth) to make the customers aware of the richness of the platform and drive product led growth
- Users get full platform access (with limitations such as restricted daily hits for profile views, exports and certain platform modules)
- **Great traction** - in just one year since launch, more than **1,00,000 sign ups** for Tracxn Lite, with pace of acquisition increasing QoQ. Monthly active users have crossed **23,000**
- Very good **increase in overall sales acquisition pipeline**. For instance - Q1 v/s Q4 2024
 - #Organic sign-ups have **more than doubled (2.4X)**
 - Avg monthly actives have **more than tripled (3.6X)**
 - Avg. #users / day hitting the credit limit **more than tripled**
 - Increase in upgrade requests, demos, etc.

Select Recent Growth Initiatives

3 Specialized Teams - Universities

- Specialized team with cumulative experience of over 20 years in selling to universities
- Bulk of our relevant customer segments come from top universities globally. More than a revenue segment, universities are a good marketing and discovery channel for us
- Seeing very good success: Customer count* has **more than tripled** in this segment and **revenue has more than doubled** in just the last 12 months
- Continuing to increase penetration, while also working towards increasing engagement - eg. through inclusion in relevant courseworks, on-campus activation sessions & more

Select University Accounts:

UK

Australia

USA

Netherlands

France

Mumbai

Lucknow

Calcutta

IIT Kanpur

ISB

Note: (*) Accounts on library / department pack in this segment

Select Recent Growth Initiatives

Specialized teams for:

4 Startups

- We continue to see high volume of inbound leads from startups
- Though they are served by the same platform, they have a differentiated use case and workflow requirements
- Some of the uses cases that are particularly interesting for startups are Fundraising, Competitor analysis, Market research & Business development
- ~50% revenue from new accounts in this segment is from international customers

5 Accelerators & Incubators

- This is a new team, only a few months old
- Focusing on customers across private incubators, government incubators, universities and corporates
- We are seeing good initial success in India and plan to expand this internationally as well

Select Recent Growth Initiatives

6 Specialized Teams - Investment Banks

- Specialised team for selling to IBs through both inbound & outbound reach outs
- Coupled with augmenting the platform coverage for this segment. For instance, increased coverage of private company financials, VC & PE databases for their outreach efforts, etc.
- Also launching additional features - for eg. startups can mention if they are looking to hire an IB on our platform, which becomes a sales pipeline for the investment banks
- Seeing very good initial success:
 - Increasing logo penetration in India by ~1% MoM
 - Pace of new customer acquisition has ~tripled
- Plan to scale across geographies

Account Expansion & Engagement

Various initiatives are underway for improving paid customer engagement as well as account expansion to enhance growth from existing customers.

For account expansion, we had setup a separate team to work on increasing penetration of licenses within existing accounts moving from reactive to more proactive account upgrades. This has led to account expansions through user addition as well as increased data on the platform.

- **Curbing login sharing** continues to be one of the ways for account expansion
- We have also seen some initial success in city trips and **on-site onboarding sessions** etc.
- Recently launched initiative includes proactive reach-outs to **under penetrated accounts**

We're also working on initiatives to boost engagement at both user and account levels. These include specialized engagement teams, regular touchpoints, personalized dashboards, alerts based on customer investment mandates, and analyzing user behavior to help them use the platform more effectively.

UAE Tech startups continue to see downward trend; Funding falls 49% in Q3 2023

Tracxn Geo Quarterly Report: UAE Tech - Q3 2023

Press Release

October 4, 2023

- Total funding into UAE Tech startups dropped 49% to \$112 million in Q3 2023, compared with \$219 million in Q3 2022
- No IPOs took place, and no Unicorns emerged in Q3 2023
- Number of acquisitions dip to four in Q3 2023 from 10 in Q3 2022
- FinTech, Enterprise Applications and HealthTech were the top-performing segments
- Dubai takes the lead in terms of total funding in Q3 2023

UAE: Tracxn, a leading global SaaS-based market intelligence platform, has released its Geo Quarterly Report: UAE Tech - Q3 2023. The report, based on Tracxn's extensive database, provides insights into the UAE Tech space.

The UAE Tech space is the second highest-funded sector in the Middle East and North Africa (MENA) region, followed by Saudi Arabia and Egypt. Funding in this space saw a peak in 2021 after which it has

Funding galore in spacetech start-ups; \$62 mn infused this year

UMA KANNAN @Bengaluru
FROM just \$35 million funds raised between 2010 and 2019, the Indian spacetech sector has already attracted \$62 million in funding so far this year, which is a 60% increase as compared to the same period last year. According to recent insights by Tracxn, India ranks seventh in terms of funding within the international spacetech landscape for the year. In 2020, the sector secured \$28 million in funding and it was \$86 million in 2021. In 2022, the sector witnessed an impressive \$112 million funding. As per experts, after the launch of Chandrayaan-3 mission, venture capital funding and the number of start-ups in this space might increase in the coming years. "The success of Chan-

drayaan-3 is sparking a significant rush of interest among both VCs and start-ups in the space sector. VCs are known for seeking high-potential opportunities and will likely view the space sector as a burgeoning field with substantial growth potential. This will increase funding for these start-ups as investors recognise the viability of innovative projects and solutions related to satellite technology, space research, and interplanetary exploration." Somdutta Singh, founder & CEO, Assidius Global Inc. LP Investor in several marquee funds, said. Awaiz Ahmed, CEO, Pixxel had told this newspaper that ever since the Indian government introduced new space reform initiatives, their support in enabling private companies

to address the gaps has only grown further. Pixxel has so far raised \$97.10 million in funding, followed by Skyroot at \$72.3 million and Agnikul has raised \$34.8 million. Tracxn said in its report that among the thriving business models within the sector, small payload-based launch vehicles have garnered significant attention, securing \$75.6 million in funding over the last two years. Satellite-based Imaging Solutions have also witnessed substantial support, with \$94.2 million in funding secured over the past two years. As per reports, there are at least 140 registered spacetech start-ups in the country. Singh added that over the past few years, funding in Indian space tech start-ups has experienced significant growth.

Startup funding dips to lowest in 5 yrs in Q3 to \$1.5 bn, says report

ARYAMAN GUPTA
New Delhi, 27 September

Funding among Indian startups declined to the lowest in five years in the third quarter of calendar year 2023. Investments fell 54 per cent compared to the same period last year at \$1.5 billion. On a sequential basis, funding fell 29 per cent from the previous quarter, according to a report by market intelligence platform Tracxn.

"Despite facing the challenges of a funding winter, India ranks as the fifth highest funded country in Q3 2023 and maintains its fourth-place position in terms of total funding for the year to date (YTD). It underscores the resilience of India's tech startups and their ability to adapt to changing market conditions," said Neha Singh, co-founder, Tracxn. The quarter saw five funding rounds cross the \$100 million mark, including the likes of Perfios, Zepto, Ola Electric, Ather Energy and Zyber 365. "Despite the decline in funding, India remains among the top-performing tech ecosystems globally. A promising sign in the report is the month-on-month funding growth, with an impressive 91% increase from \$376 million in August 2023 to \$720 million in September 2023," said Abhishek Goyal, co-founder, Tracxn.

FUNDING IN FINTECH STARTUPS IN THE US ACCOUNTED FOR 58% OF TOTAL CAPITAL RAISED GLOBALLY

FinTech News | 23.07.2023 | 04:30 pm

Tracxn, a leading global SaaS-based market intelligence platform, has released its FinTech - US Semi-Annual Funding Report - H1 2023. The report, which is based on Tracxn's extensive database, provides insights into the US FinTech space.

Funding into US-based FinTech startups fell in H1 2023 fell 33% when compared with H1 2022, but rose 42% from H2 2022. The US FinTech space attracted investments worth \$12.8 billion in H1 2023, which is 58% of the total funds raised by the global FinTech startup ecosystem during the same period.

Despite facing challenges during H1 2023, the US-based FinTech startups have displayed remarkable perseverance. While funding experienced a 33% dip compared with H1 2022, it rebounded with a 42% surge from H2 2022. During H1 2023, the US FinTech sector managed to attract significant investments amounting to a staggering \$12.8 billion, representing for 58% of the total funds raised by the global FinTech startup ecosystem during the same period.

INDIAN START-UPS RAISE MORE FUNDS THAN CHINA FOR 2ND STRAIGHT YEAR

India pulled ahead of China in terms of start-up funding for a second consecutive year during the first half (H1) of 2023, raising \$5.5 billion. It attracted the third-highest start-up funding. The US topped the list, raising \$67.4 billion, followed by the UK, which raised \$8.6 billion, according to data from market intelligence platform Tracxn. The last time China got more start-up funding than India was in H1 2021.

AI in Data Production

We continue to harness GenAI for key initiatives in data production yielding significant and promising results. We have been able to multiply our datasets while reducing manual intervention & shrinking headcount, which is a great testimony to our use of automation and intelligence in data production.

- In 2024, we increased the coverage of key data points on our platform **over 5X** while the **data production headcount reduced by ~10%**

Some interesting ways in which we are leveraging AI:

- In company profiling, transactions data, data updation, improving data accuracy
- Extracting relevant data points from **unstructured data & documents**, enabling massive scalability to accelerate the pace of data addition
- **Training the models on our internal historical data**, to achieve high accuracy in select modules, such as identifying upcoming private companies, industry classification, & more
- Empowering our **GTM teams** by refining lead profiling, sentiment analysis of interactions, and optimizing engagement strategies

In the coming year, we expect significantly **more optimization** in the data production units while we expect the **throughput** of the systems to further **accelerate**. We are excited about the possibilities with GenAI technology and its potential to help build data on private companies globally.

Key Business Strengths (1/2)

Large, Growing Market & Rich Customer segment

- More than 1,00,000 addressable organizations
- We currently work with small single digit % of this market & remains largely untapped.

High Operating Leverage & Margin Expansion

- Incremental cost to serve customers is very low
- Offering is productized & there is no custom servicing work required
- Between FY21 to FY24, the revenue grew at a CAGR of 24% while the total expense grew only at 9%

India Cost Advantage

- Significant cost advantage because we make-in-India while selling globally, ~ 70% of revenue comes from international customers.

Profitable operations and increasing free cash flow

- Consistent margin expansion, positive EBITDA of INR 4.6 Cr. and a positive PAT of INR 6.5 Cr. in FY24.
- FCF stood at INR 10.3 Cr. and cash & cash equivalents stood at INR 75.2 Cr. at the end of FY24, a 25% increase, YoY.

Scalable & Proprietary Technology Platform

- In-house platform built on leading technologies and architectures.
- Highly agile and scalable, and aggressively leverage the latest technology stacks, machine learning and generative AI capabilities

Key Business Strengths (2/2)

Low cost, content driven acquisition flywheel

- Content-based marketing helps us to acquire a high velocity of leads without having to spend on paid marketing.
- 16 million visits across all our public pages and over 3000 press mentions in prominent news media in FY24.

Debt-free, Asset Light. Negative Working Capital

- Asset-light business, fixed assets on balance sheet of INR 0.2 Crores
- Depreciation expense was INR 0.2Cr & capex of INR 0.01Cr. in FY24
- Capital efficient and able to scale with flexibility
- Debt-free since inception

Strong Team & Experienced Board of directors

- Strong and experienced top management team.
- Board consists of 4 independent directors bringing rich experience from the investment industry and the corporate development.

Strong Focus on Good Governance

- Right from the 3rd year of our operations, we have had our statutory audits conducted by one of the Big4 auditors and we never had any qualifications.
- We continue to work on adopting the best governance practices as much as we focus on growing the business

Key Strategies

Key strategies (1/2)

Continue to grow account base

Ways to increase our account base

- Expanding sales, marketing & customer success team
- Referrals from existing customers
- Event partnerships for media and industry events
- Channel partnerships
- Additional sales and marketing representatives in geographies outside India
- Content-based marketing

Historical Growth

Expand share of revenues among existing customers

Tiered Pricing & Upsell features / Subscriptions

to the existing customers through differentiated offerings

Following a Three-pronged approach

Growing the number of users within an account

Generating additional data downloads

Adding more Customer Accounts or different teams within an Org

Continue to grow platform to offer additional services

Devoted substantial resources towards expanding the platform modules & data

Data Added (FY24)

8,50,000+ Entities

22,000+ Reports

6,63,000+ News items

74,000+ transactions[^]

Modules added

2019 – Portfolio Tracker & acquisition database

2021 – Live Deals

2022 – Investors Database

2024 – Legal Entities Database

19,000+ updates
to the platform (FY24)

[^]includes funding & acquisition transactions

Tools/Features developed to integrate into the workflow

- Automated sourcing tools
- personalized widgets, investor management tools and multi-lingual support
- Generation of mark to market reports for fund performance

Key strategies (2/2)

Capitalize on industry opportunities to expand coverage of our customers

Private Market AUM[^] - (US\$ Tn)

Total Addressable Market[^] - (\$ Mn)

From **52% to 65%**
Combined market penetration of private market data providers in the next 5 years

Expand into adjacent customer segments

Additional use cases of the private market & emerging tech data

- Product discovery where customers can search and find vendors for various software, tools and other use cases.
- Limited partners use the platform for **Fund performance data**
- sales personnel rely on our platform for augmenting company information to **improve their sales outreach**.

Tracxn intends to offer such additional features & modules to further expand their total addressable market

Expand our operations through inorganic growth channels

Acquisition strategy will aid in

- ↑ long-term growth
- ↑ competitive position
- ↑ increasing its market share
- ↑ acquiring technical expertise
- ↑ achieving greater scale
- ↑ Growth in earnings
- ↑ Increase in shareholder value

- Tracxn intends to acquire businesses and technologies that complement its existing capabilities
- It may consider investment opportunities to be able to acquire new technologies, or generate cross selling opportunities, in order to grow its platform or to expand its presence internationally.

Note: (^) According to "Global Information Services Market" report by Frost & Sullivan
