Dear Sir,

SUB: Transformers and Rectifiers (India) Ltd dispatches highest rating green transformer to Columbia.

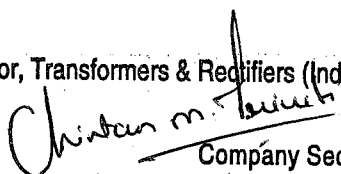

Pursuant to Clause 36 and other applicable clauses of the Listing agreement this is to inform you that, Transformers & Rectifiers (India) Ltd (T&R) has dispatched the India's highest rating 75 MVA, 115 kV, three-phase Power Transformer to Columbian utility which shall be filled with Envirotemp FR3 natural ester fluid supplied by M/s. Cargill.

This is the highest rating transformer ever manufactured in India filled with Natural Ester oil. It has also measured a very low noise level, below 55 dBA with which T&R marks its foot print in the manufacture of eco-friendly silent green transformers.

It's a three winding transformer and interconnects voltage levels 115 kV and 34.5 kV, 13.2 kV. The Transport weight is below 110 tonnes (N2 filled) and it contains 27 tonnes of natural ester fluid. It was successfully tested by the Company in October, 2014. The development of transformer was done by in house R&D efforts.

On this occasion, Mr. Jitendra Mamtora, Chairman said that "Proving once again the capabilities, T&R is geared up with in house R&D setup and manufacturing facilities to meet challenges to manufacture eco-friendly green transformers."

For, Transformers & Rectifiers (India) Ltd.

Company Secretary

About Transformers and Rectifiers (India) Ltd:

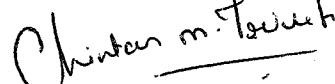

Transformers and Rectifiers (India) Limited incorporated in 1994 has consolidated its position in the Indian Transformer industry as a manufacturer of a wide range of transformers, which conform to the quality expectations of both the domestic and the international market. An ISO 9001 & 14001 & BS OHSAS 18001 company today, T&R as it is more popularly known, is proud to have executed a number of prestigious orders from developed countries such as Canada and the United Kingdom.

The capability to develop world class power, distribution, furnace and special duty transformers is credited to the creation of a world class infrastructure at three plants around the city of Ahmedabad, one of the leading industrialized cities of India. This facility is equipped with world class state of the art equipment and managed by a highly skilled and experienced team of production personnel who consistently ensure that each and every production activity factors in an adherence to the high quality benchmarks established by the organization.

Please take the same on your record.

Thanking you,

Yours faithfully,
For Transformers and Rectifiers (India) Limited

Chintan M. Trivedi
Company Secretary
