Trom Industries Bags Rooftop Solar System Installation Contract from 17 Government Schools in Bhuj

Gandhinagar, March 19, 2026 : Trom Industries Limited (NSE- TROM | INEOSYV01018) a fast-growing solar EPC and clean energy solutions company, has announced receiving a work order from the District Education Office, Bhuj for the installation of rooftop solar systems across government schools.

The project involves the design, supply, installation and commissioning of rooftop solar systems across 17 government schools in Bhuj, with an order value of ~₹1.41 crore. The execution timeline for the project is one year, reflecting the Company's capability to efficiently deliver distributed rooftop installations across multiple locations.

This order marks a steady step forward in Trom Industries expanding presence within the government solar segment. It underscores the Company's execution strength in handling decentralized projects, which are increasingly becoming a key component of India's renewable energy transition.

The project is aligned with the broader push towards clean energy adoption and energy efficiency within public infrastructure, particularly in the education sector, where sustainable and cost-effective energy solutions are gaining importance.

With this order, Trom Industries continues to build traction in the public sector while maintaining consistent progress across its other business segments. The Company remains well positioned to participate in the growing opportunities within India's solar rooftop and distributed energy market.

Commenting on the order win, Mr. Jignesh Patel, Managing Director of Trom Industries Limited said:
"This project strengthens our presence in the government solar segment and reflects our ability to execute multi-location rooftop installations efficiently. With rising clean energy adoption in public infrastructure, we see a steady pipeline of similar opportunities ahead."

About Trom Industries Limited

Trom Industries Limited ("was formerly known as Trom Solar") Incorporated in 2011, is an engineering, procurement, and construction (EPC) company specializing in solar energy solutions. Headquartered in Gujarat, the company focuses on residential and industrial solar power plants, Ground-mounted systems, and solar street lighting, with a strong presence across Gujarat and Maharashtra.

The Company serves a diverse portfolio of marquee clients, including RBI, ONGC, GAIL, Honda, Toyota, Vedanta, Amul, Corona Remedies Limited, Ahmedabad Municipal Corporation, ArcelorMittal Nippon Steel India Private Limited, GEDA, Apollo Infratech Private Limited, Royal Castor Products Limited, Vasant Masala Private Limited and Sahajanand Laser Technology Limited. Trom Industries' project portfolio spans government tenders, residential installations, and large-scale industrial and commercial solar projects.

Committed to advancing sustainable energy adoption, Trom Industries offers customized renewable energy solutions such as solar rooftop systems, ground-mounted solar projects, solar street lighting, offgrid solutions, solar water purifiers and solar pumps.

With over 100 MW of high-efficiency modules installed, 70 MW of experienced EPC execution, 45 MW of complete operation and maintenance services, and more than 30,000 satisfied customers. Trom Industries leverages technical expertise and local market knowledge to deliver reliable and cost effective renewable energy solutions.

In FY25, the company reported consolidated total income of ₹93.91 Cr, with an EBITDA of ₹7.41 Cr and net profit of ₹4.61 Cr
