Israel intensifies strikes on Gaza

Palestinians look for survivors of the Israeli bombardment of the Gaza Strip in Rafah on Sunday.

ISRAELI FORCES BOMBED wide areas of the Gaza Strip on Sunday, killing and wounding dozens of Palestinians, as civilians in the besieged territory sought shelter in an ever-shrinking area of the south.

Among the sites hit was the Jabalia refugee camp in the north of the Hamas-ruled enclave. A Gaza health ministry spokesman said several people were killed and dozens wounded by an Israeli airstrike.

A Jazeera television broadcast footage it said showed the aftermath of the strike. People, including a child, were covered in grey dust as smoke rose from piles of rubble and huge chunks of cement from collapsed buildings. Bombardments from war planes and artillery also concentrated on Khan Younis and Rafah cities in Gaza's south-western and southern regions,

struggling to cope with the flow of wounded. There was no immediate comment from Israel on the reported actions.

The renewed warfare followed the end on Friday of a seven-day pause in the fighting between Israeli forces and Hamas militants to allow an exchange of Israeli hostages and Palestinian prisoners. It took place despite growing calls from the United States - Israel's closest ally - for Israel to avoid further harm to Palestinian civilians.

More than 15,000 have been killed as of Saturday, according to Gaza's health ministry, in nearly two months of warfare that broke out after a Hamas cross-border raid on southern Israel on October 7 in which 1,200 Israelis were killed and more than 200 taken hostage. —REUTERS

Heartland beats for BJP

"OVER THE LAST few years, this support has only been increasing and this trend will continue in the times to come. Our bond with Telangana is unbreakable and we will keep working for the people. I also appreciate the industrious efforts of each and every BJP karyakarta," he said.

"This is a historic, unprecedented victory. Today, the sentiment that the development of the states will lead to development of Bharat has won," Modi said. In a post on X, he said, "We bow to the janata janardan".

The morale boost and the energy that these results provide, a BJP leader said, will be a springboard for forays into states identified for inroads in the countdown to the Lok Sabha polls. Senior BJP leader P. Muraliidharan, party in-charge of Madhya Pradesh where it made a stunning comeback, told *The Indian Express*: "In this election, the BJP has once again proved to be a day-to-day functioning party. The BJP is visible, it's moving on the ground while the Congress is absent there. The Congress debate has not only weakened the Opposition INDIA bloc, it has enhanced the power of the BJP. The Modi brand has become unquestionable, while Rahul Gandhi is weakened".

While the acceptance and popularity of Modi as a strong leader remain the biggest strength of the BJP, its organisational strength, the goodwill created by welfare schemes initiated by chief minister Shivraj Singh Chouhan in Madhya Pradesh and the guarantees announced by the party in Chhattisgarh and Rajasthan and the Hindutva plank have paid off. BJP leaders also pointed out that voters' expectations that have increased in Madhya Pradesh, BJP's electoral strategies, and the regained trust among tribals, a significant factor in the three heartland states, have contributed to its electoral performance. In his victory speech, Modi said: "Every poor person, every deprived person, every farmer, every tribal thinking he has won today. Every woman is seeing her own victory. Every young person, every citizen is seeing this as a personal success".

Countering the Opposition move to frame the 2024 battle around caste census, Modi repeated his poll campaign line that recognises only four castes: the poor, youth, women and farmers are the biggest castes for him, and only the uplift of these four will make the country developed.

In the Assembly elections, the Congress banked heavily on a slew of promised guarantees while the BJP countered it with "Modi ki guarantee". And this message was amplified again on the dais at the BJP headquarters where Modi spoke after the results Sunday. "Sapne nahi, haqqeet bunte hain, tabhi toh sabh Modi ko chunte hain (He weaves realities not dreams, that's why everyone chooses Modi)" — that was the line on the banner behind him.

According to BJP leaders, the strong push from the party came in the four weeks before the voting on November 17. "It was almost like a surgical strike, but with our organisational strength and mobilisation capacity," said a BJP leader who was involved with the election planning in Madhya Pradesh.

"In the last few weeks, we laid out our political strategies and micro-management to get the karyakartas to fight this election and snatch the win from the Congress, which was already celebrating the edge it had," said another senior leader involved with the party strategy. The party central leadership moved to field several high-profile leaders and MPs — including Union Ministers Narendra Singh Tomar, Prahlad Patel and Fagga Singh Kulaste — and party general secretary Kalash Vijayawadhi also worked in Rajasthan, while Modi and his popularity remained its most significant weapon in its arsenal, the BJP's campaign against what it called "appeasement politics" of the Ashok Gehlot government appeared to have helped the party in a state where over 90% of the population is Hindu. In Chhattisgarh, despite the lacklustre approach of its state unit in the last five years, the party appeared to have been ready for a "decent" performance.

FDI interest from China strong despite 2020 fiat

SINCE THE CURBS on investments via FPIs were put in place in April 2020, FDI inflows from China fell September this year stand at \$1.24 billion, and from Hong Kong at \$334 million. Total FDI Form China between April 2020 and September 2023 came in at \$2.5 billion and from Hong Kong at \$4.7 billion. From other countries sharing land borders with India, the inflows have been minuscule. The time taken for approvals has nudged MG Motor to take on JSW Group as a joint venture partner, offering it 35% stake in its Indian subsidiary.

As the deal involves MG reducing stake, it would not need government approval. Government has no objection to it, the official said. Faced with a somewhat similar situation, some Chinese mobile phone and electronic brands like Xiaomi are increasingly tapping local contract manufacturers to expand in India.

Google takes on Meta, this time with its messenger platform

FURTHER, THE CHANNELS under the purview of Telecom Regulatory Authority of India (Trai) as telcos and communication platform as a service providers (CPaaS) players are also involved in the process. Route Mobile, which is a cloud communication platform provider, says 20-25% of enterprises have currently adopted RCS and are identifying use cases to tap consumers.

"We are getting good response from enterprises for RCS as it is more visually appealing and leads to better engagement compared to plain text. Over the next 18-24 months, we expect 25-30% of the SMS volume to shift to RCS from plain text/SMSat present," said Tushar Agnihotri, head of India operations and Asia region at Route Mobile. Currently, overall industry SMS volume is 57 billion a month, and it is growing at a compound annual growth rate (CAGR) of 18%.

According to Agnihotri, there is no difference between WhatsApp and RCS. However, RCS has hosted gateways with telecom operators, making it easier for the channel to qualify for receiving messages which are transactional in nature, like from banks. This is because regulators such as Reserve Bank of India and Trai will have higher degree of comfort regulating RCS compared to WhatsApp, he added.

For Sinc, which is also an enterprise RCS business in India has grown six times in 2023 compared to last year, and the platform is being used by the company's top 10 clients largely for financial services.

"With RCS, Google will see good growth in market share in conversational messaging. Currently, WhatsApp may be 3x in terms of mobile penetration but, in terms of messaging volume RCS is growing faster than WhatsApp," said Nitin Singh, managing director at Sinc India.

One of the challenges which RCS at this stage faces is the reach of its services. This is because this feature needs to be activated by smartphone makers. Currently, about 300 million handsets are RCS-enabled, compared to WhatsApp being used by over 600 million users in the country. RCS is not supported on iPhones as of now, putting around 56 million iPhone users in the country out of its reach. However, Apple recently said iPhones will support RCS messaging next year onwards.

According to Indep Singh Mumbik, executive vice president — telecom business, and CEO, RCS has a delivery rate as high as 98% and read rates at 79%, and it is witnessing high engagement from customers. Dolgo is an RCS platform acquired by Gupshup in 2021.

China frames 'One Province, One Policy' plan for the financial risk

PHILAU SJU December 3

CHINA'S REGULATOR WANTS provinces to come up with their own plans to handle financial risks, according to a report, about a month after officials pledged to set up a mechanism to resolve local debt issues.

The country should make greater effort in financial risk management but the policies need to be tailored, avoiding a one-size-fits-all approach, the Xinbia News Agency cited Li Yanze, head of the National Financial Regulatory Administration, as saying in an interview. Provinces have to devise their own policies on how to handle risks, according to the report.

The world's second-largest economy has struggled for traction this year as a bounce-back from restrictive Covid-19 zero policies proved to be softer than expected and a property crisis dragged on. That's prompted successive waves of support from central and local authorities, but some economists have argued that government debt is now too concentrated at the local level. On risk management, there'll be "one province, one policy," Li was cited as saying in the article, which was published in a question-and-answer format.

"Risk prevention and management are the eternal themes," Li said. The agency will focus on looking into people who cause major risks, pledging to deepen so-called rectification of chaos and disordered behavior in markets, he said.

In late October, the two-day Central Financial Work Conference, which was attended by President Xi Jinping, pledged to optimize the debt structure of central and local governments. At the meeting, officials also vowed to set up a process to resolve debt risks tied to local authorities. —BLOOMBERG
