PRESS RELEASE

TSC India Grows Gross Transaction Value by 21.74% in H1 FY27 and Steps Up Focus on Booking Growth

Registered agents increased 37.13% YoY to 4,114, while total bookings rose 5.92% YoY to 1,24,476.

Jalandhar, November 17, 2026: TSC India Limited (NSE SME: TSC), a technology-enabled B2B travel aggregator and travel consolidator providing travel agents and partners with an integrated suite of solutions spanning air tickets, hotels, and visa facilitation services, reported **21.74% year-on-year growth in gross transaction value (GTV)** for the six months ended 30 September 2026. The Company expanded its **registered agent network by 37.13%** to 4,114 and **recorded 1,24,476 bookings**, up 5.92% year on year, amid continued geopolitical uncertainty affecting international travel. With a revamped contact centre, an upgraded CRM system and experienced additions to its leadership team, TSC is strengthening its capacity to serve a wider agent network and capture a greater share of its partners' business across flights, hotels and visas.

Commenting on the financial performance, Mr. Ashish Mittal, Managing Director at TSC India Ltd, said, *"We are building TSC into a significantly larger B2B travel business. Geopolitical uncertainty has held back the pace of international travel bookings, but the opportunity within our own network is immediate. With 4,114 registered agents, our focus is to get more partners transacting regularly and earn a greater share of the business they already do across flights, hotels and visas.*

We have revamped our contact centre, upgraded our CRM and brought experienced leaders into key management roles. We want agents to get faster answers, see their requests followed through and receive consistent service across all three offerings. That is how we intend to make TSC a partner agents choose more often and grow booking volumes as our network expands.

In the second half, we will focus on getting newly registered agents to transact sooner, growing repeat bookings and expanding the use of our hotel and visa services across the network. We will track our progress through active agents, booking frequency and adoption across services. We see substantial room to grow within the network we have already built, and we are moving quickly to capture it."
