MEDIA RELEASE

Tata Technologies secures SAP PartnerEdge Sell authorization, helps strengthen enterprise and AI-led transformation capabilities

Tata Technologies secures SAP PartnerEdge Sell authorization, strengthening enterprise and AI-led transformation capabilities

- Strengthens Tata Technologies' position within the SAP ecosystem with end-to-end capabilities spanning advisory, implementation, and value realization
- Enables enterprises to accelerate SAP Cloud ERP adoption and modernize digital core for real-time, data-driven decision-making
- Enhances ability to embed SAP Business AI and intelligent automation across enterprise workflows for improved productivity and scalability

Pune, Mumbai, Bengaluru, India, 1st June 2026: Tata Technologies Limited (BSE: 544028, NSE: TATATECH), a leading global product engineering and digital services company, today announced that it has secured SAP PartnerEdge Sell authorization across **India** and the **United States**, strengthening its strategic role within the SAP ecosystem.

This authorization marks a significant evolution in Tata Technologies' go-to-market strategy, transitioning from a services-led model to a solution-led, outcome-driven approach. Under this model, Tata Technologies will lead customer engagements across the full lifecycle, including solution advisory, cloud ERP transformation, solution design, and value realization.

With this authorization, Tata Technologies enhances its ability to accelerate **enterprise-wide transformation** powered by the SAP Business Suite portfolio. Tata Technologies will support enterprises in modernizing their digital core with **SAP Cloud ERP**, enabling real-time, data-driven decision-making and scalable operations aligned with SAP's vision of the Autonomous Enterprise.

Leveraging its deep expertise in manufacturing, Tata Technologies enables global OEMs and enterprises to reduce implementation risks and accelerate SAP Cloud ERP adoption. By serving as a single partner across the SAP journey, from advisory and business case development to implementation and value realization, Tata Technologies ensures seamless and outcome-focused transformation.

As part of this collaboration, Tata Technologies will help organizations harness **SAP Business AI** to embed intelligent capabilities into enterprise workflows. This includes leveraging Joule, SAP's AI-enabled business assistant, to enhance productivity, automate processes, and accelerate decision-making.

Through integration with the SAP Business Technology Platform, Tata Technologies enables enterprises to extend and innovate across their SAP landscapes, unlocking actionable insights while maintaining a resilient and scalable digital core.

Aligned with SAP's Clean Core strategy, Tata Technologies supports enterprises in adopting innovation without disrupting legacy systems, ensuring standardized, upgrade-stable environments that are agile and future-ready.

Mr. Warren Harris, MD & CEO, Tata Technologies, said:

"The future belongs to enterprises that innovate faster, operate smarter, and scale sustainably. Expanding our SAP PartnerEdge partnership with a Sell authorization enables us to deliver transformative solutions that help customers reimagine their businesses and stay ahead in an increasingly digital world."

This authorization reinforces Tata Technologies' position as a **trusted global partner for enterprise and AI-led transformation**.

ENDS

About Tata Technologies

Tata Technologies (BSE: 544028, NSE: TATATECH) is a global product engineering and digital services company helping manufacturers design, develop, and deliver better products. The company partners with global OEMs and enterprises across automotive, aerospace, industrial heavy machinery, and other manufacturing sectors.

Driven by its vision of #EngineeringABetterWorld, Tata Technologies enables enterprises to innovate faster and deliver differentiated customer experiences through engineering excellence and digital transformation.

With deep domain expertise in Embedded Systems and Software Solutions, Engineering Research & Development (ER&D) Services, and Digital Enterprise Solutions, Tata Technologies helps enterprises accelerate time-to-market, optimize product development costs, improve operational efficiency, and build smarter, safer, and more sustainable products.
