**BSE STAR, Godavari society in tie-up**

New Delhi, June 4

Mutual funds distribution platform STAR MF has joined hands with Godavari Urban Multi State Credit Co-Op Society Ltd. Nanded, to deepen its network of over 70,000 registered distributors, BSE said on Friday. Through this tie-up, BSE STAR MF aims to promote investment behaviour by spreading awareness and on-boarding new investors among prospective customers in areas, primarily rural, served by GUMCCSL. In addition, it aims to facilitate cooperation between BSE STAR MF and rural markets in areas such as financial inclusion, investment goals, and wealth creation, the exchange said in a statement. Further, it will enable both parties to instil collaboration with meaningful outcomes. **PM**

Stocks of PVR, Inox Leisure put up a good show despite uncertainties

Investors hope theatres would reopen soon

NARAYANAN V

Chennai, June 4

Even as the prospects of theatre re-opening appear distant, stocks of listed multiplex players are registering an impressive show in the stock market in recent times. Stocks of the two leading multiplex players - PVR and Inox Leisure - have rallied around 50 per cent in the last 12 months despite uncertainties over theatre re-openings and footfalls, growing threat from OTT platforms and poor financial results posted in the recent quarters.

Stocks of India's largest multiplex operator PVR had hit a low of ₹718 apiece on May 19, as the multiple phases of national lock-down brought the film exhibition industry to its knees. PVR stocks have since rallied over 94 per cent to

touch an intra-day high of ₹1,398 on Friday. The stock even touched a 52-week high of ₹1,592 in January before dipping due to the second wave of Covid and consequent theatre shut-down across the country.

Similarly, stocks of Inox Leisure rallied over 100 per cent and touched an intra-day high of ₹321 on Friday. Inox Leisure's stocks touched a low of ₹158 apiece on May 19, 2020.

Betting on reopening

"The recent rise in the stock price is due to a combination of several factors. Signs of peaking out of Covid-19 cases have raised hopes

that multiplexes would get to start with their operations soon and help the business to return to normalcy in a phased manner," said Ajit Mishra, VP-Research, Religare Broking Ltd.

"Secondly, global trends of multiplexes are quite positive on the back of strong openings of some films suggesting that theatres have not lost their charm. Thirdly, abundant liquidity and positive sentiments have also helped the stock prices to inch higher," he added.

Record losses

The strong rally and buy interest

from investors come at a time when both the multiplex operators posted net loss in the latest quarter. PVR reported a consolidated net loss of ₹289 crore in Q4 as against a loss of ₹74.5 crore in a year ago period while Inox Leisure posted a consolidated loss of ₹93.69 crore (₹82.15 crore) for the fourth quarter ended March 2021.

"Apart from improved market sentiment, the rally of the multiplex industry was backed by easing lockdown norms which led to increased footfalls in Q2FY21 & Q3FY21 and helped in achieving fund raisings," said Vinod Nair, Head of Research at Geojit Financial Services.

"However, we should note that the industry is still heavily underperforming in terms of both business income and stock performance. Public restrictions norms are maintained leading to blockbuster movie releases being postponed. OTT platforms too are rising competitors for the industry," he added.

Dangers of trading in AMC-type overseas stocks

Be aware of risks while investing in global stocks

RINGSIDE VIEW**KS BADRI NARAYANAN**

Chennai, June 4

When it comes to taking risk, Indian investors are not far behind their global peers. In a move to make a quick buck, Indian investors do not hesitate to explore sizzling hot stocks overseas.

Overseas investing, especially the US markets, has become easier for Indian investors, thanks to global platforms such as Globalise, Vested and Stockal.

Currently, Indian investors are allowed to invest up to \$250,000 every year overseas as a part of RBI's LRS scheme.

Capitalising on the facility, retail investors in India recently joined the AMC Entertainment Holdings Inc bandwagon, as frenzy for the stock was going through the roof.

AMC's rise and fall

According to a Bloomberg report, "The money-losing movie-theatre chain is among the five most-traded US stocks over the past week on both Vested Finance and Stockal, two India-focused platforms for retail investors to buy US equities. AMC Entertainment has accounted for 14 per cent of trades on Ves-

ted this week, a greater proportion than Tesla Inc., Shopify Inc. and Facebook Inc."

From a mere \$1.91 on January 5, 2021, the stock of AMC Entertainment jumped to \$72.62 on June 2, a 3,700 per cent gain in six months. However, after the promoters said they are planning to sell shares to raise funds on Wednesday, the stock crashed to \$37.66 in knee jerk reaction and settled at \$51.34.

According to experts, most of these investment decisions are based on social media postings, especially after the emergence

of Reddit.com and a new class of Robinhood retail investors in the US. Indian investors think they can enter and exit quickly with large returns.

**Key risks**

Are investors aware of the risks involved in chasing such over-heated stocks? First and foremost is volatility. The stock prices that moves up sharply, without fundamental reasons, has a higher possibility of coming down quickly too. With US and India having different time zones, it is very difficult for Indian investors to closely mon-

itor these stocks movements.

But the biggest risk is suspension of trading. Federal securities laws allow the US Securities and Exchange Commission (SEC) to suspend trading in any stock for up to 10 trading days if the regulator determines that a trading suspension is required in the public interest and for the protection of investors. In May alone, SEC suspended over 30 stocks.

As investments in US equities must be made only in US dollars, so there is a currency risk too. So, even if the investment bet turns to be successful or on expected lines, adverse currency movement could mar returns, if the rupee tumbles sharply against the USD.

Of course, these platforms do provide unique opportunity for Indian investors to own world-class companies such as Apple, Google, Tesla or Amazon.

So, service providers need to educate Indian investors on the risks and opportunities provided by overseas markets. Investors could consider systematic investments (quarterly or half-yearly basis) with a long-term perspective.

If one is not sure of risk-return potential, then they should be directed to invest through mutual funds. Currently, a lot of fund houses offer global mutual funds/ETFs, which would be a safer route than punting on individual stocks.

Indian Hotels, Coromandel, Metropolis, ABFRL to enter F&O

This will happen on June 25, says NSE

OUR BUREAU

Chennai, June 4

The National Stock Exchange has added four stocks to the futures and options segment. The stocks are Aditya Birla Fashion and Retail (ABFRL), Coromandel International, The Indian Hotels Co, and Metropolis Healthcare.

The inclusion will be from June 25, NSE said in a circular.

The market lot and scheme of strikes for the securities will be informed through a separate circular on June 24, the exchange further said.

the upper circuit and 182 the lower circuit; 407 hit their 52-week high while 30 touched a 52-week low.

Binod Modi, Head Strategy at Reliance Securities said, "Benchmark Nifty corrected marginally by contraction in financials, especially in banks. Further, weak global cues also weighed on sentiments. Notably, a moderate increase in inflation forecast by the RBI in its policy meeting outcome today led G-sec yields increasing by about 3 bps, which resulted in profit booking in banks."

Negative global cues and rising inflationary pressures also worried investors. The Indian rupee depreciated to end lower at 73 per US dollar.

Tata Motors, Grasim, Coal India, Bajaj Finserv and ONGC were the top gainers on the Nifty 50 while Nestle India, State Bank of India, Hindalco, Axis Bank and HDFC Bank were the top lag-guards. Notably, the volatility index rose 1.23 per cent to 15.94.

Following the announcement, shares of Indian Hotels jumped to a high of ₹144, but closed at ₹136.85 on the BSE, with a gain of 1 per cent; after touching a high of ₹85330, the stock of Coromandel International closed with 2.77 per cent higher at ₹832.45; similarly, shares of Metropolis Healthcare after rising as high as 10.43 per cent at ₹2,708.90, closed at ₹2,525.55, up 3 per cent; and Aditya Birla Fashion edged up 3.6 per cent at ₹203.90 on the BSE.

Currently, 156 stocks and three indices - Nifty 50, Nifty Bank and Nifty Financial Services - are available for trading on the NSE.
