# FM, bank heads discuss Mythos threat

**MIXED BAG.** Anthropic's AI model seen as a risk and opportunity for fintech ecosystem

**Our Bureau**  
New Delhi

Finance Minister Nirmala Sitharaman on Thursday met bank chiefs to discuss risks related to artificial intelligence (AI) following global concerns over Anthropic's Mythos model threatening the data security of financial systems.

Meanwhile, Finance Services Secretary M Nagaraju said Anthropic's Mythos is seen both as risk and opportunity for the fintech ecosystem.

According to sources, the meeting chaired by the Finance Minister deliberated on various risks that AI posed to the financial sector. Banks have been urged to take preemptive measures to secure their systems, data and the money of customers.

Sources also said the Ministry and the RBI are studying the extent of risks that the Indian financial sector faces from this breach.

**CYBER-SECURITY TASKS**  
As per the reports, Anthropic said Mythos can outperform humans at cyber-security tasks, finding and exploiting thousands of bugs, including 27-year-old vulnerabilities, in major operating systems and web browsers. The US-based artificial intelligence company said unauthorised access was made on its new

**POLICY REVIEW.** The Finance Minister deliberated on various risks that AI posed to the financial sector

model Mythos, which is deemed too dangerous for public release.

Announced on April 7, Mythos is being deployed as part of Anthropic's 'Project Glasswing', a controlled initiative under which select organisations are permitted to use the unreleased Claude Mythos Preview model for defensive cybersecurity.

Mythos is a powerful AI model that has sparked concerns among regulators about its unprecedented ability to identify digital security vulnerabilities and potential for misuse.

Meanwhile, addressing the PICUP Fintech Conference organised by the Indian Banks' Association (IBA) in association with FICCI, Nagaraju said technology will play an important role

not only in driving innovation but also in strengthening supervision, risk management and fraud prevention. "AI has potential to make financial inclusion not just socially desirable but commercially sustainable. AI must be seen not just as a disruptor but as an enabler of responsible inclusion. Cyber security threats, data privacy concerns, credit and asset quality risk, trust deficit are some challenges which need to be managed to sustain long-term growth," he added.

Speaking on the importance of UPI, Nagaraju said that around 22 billion transactions were made last month, with total value surpassing ₹29 lakh crore. "UPI has emerged as the largest real time retail payment sys-

tem in the world. India's digital payment system is now expanding beyond our borders. UPI is operational in many countries and several more are in pipeline. This scale reflects not just widespread adoption but the emergence of UPI as a foundation pillar of India's digital economy and financial inclusion," he said.

**CRUCIAL ROLE**

According to the Secretary, expanding access to credit responsibly and efficiently will be crucial for unlocking entrepreneurship and economic potential at the grassroots level.

"As we deepen capital and expand access, it is important to ensure that our financial system remains resilient and stable. A strong financial system must be capable of supporting growth during favourable times, while also withstanding shocks during periods of uncertainty," he said.

# Anil Ambani proposes lenders' panel to resolve dues, seeks Finance Minister's intervention

**Our Bureau**  
Mumbai

Anil Ambani

Anil Ambani, Chairman and CEO of the Reliance Group, has written to Finance Minister Nirmala Sitharaman, seeking the constitution of a lenders' committee, led by the State Bank of India and Bank of Baroda, to determine outstanding dues and devise a structured repayment plan, amid mounting legal and regulatory pressures on his group.

In a letter dated March 17, Ambani said the proposed panel would help "crystallise legally outstanding dues" and bring clarity to obliga-

tions, in line with submissions already made before the Supreme Court in ongoing proceedings.

The Reliance Group Chairman highlighted the impact of investigations by agencies such as the CBI and the Enforcement Director-

ate, noting that actions over the past several months, including multiple FIRs, arrests and provisional attachment of assets worth over ₹15,000 crore, had severely constrained operations.

He added that freezing of bank accounts and credit lines had "effectively locked up liquidity," paralysing businesses and eroding investor value. Ambani said the developments had resulted in a loss of more than ₹25,000 crore in market capitalisation, affecting over 5 million retail shareholders.

He pointed out that the situation is "at its core, a pure commercial matter between lenders and bor-

rowers" and called for a structured resolution mechanism rather than enforcement-led action.

**COUNTER AFFIDAVIT**

The letter also referenced a counter affidavit filed before the Supreme Court on behalf of group firms, including Reliance Infrastructure and Reliance Power, where Ambani has sought the formation of a high-power committee to examine the issues.

The proposed lenders' committee, he said, would provide a transparent framework for debt resolution, restore confidence among stakeholders and enable revival of business operations.

# Start-up GalaxEye to launch 'world's first' OptoSAR in three months

**Aishwarya Kumar**  
Bengaluru

Bengaluru-based space-tech start-up GalaxEye is set to launch its first satellite, Mission Drishti, within the next three months, marking a significant step in India's emerging private space ecosystem.

The mission will introduce what it claims is the world's first "OptoSAR" platform.

The satellite combines optical and synthetic aperture radar (SAR) sensors to deliver consistent, high-resolution imagery, even through clouds and in darkness, addressing a key gap in earth observation.

The multi-sensor Earth observation satellite, with a launch weight of approxi-

mately 180-190 kg with 1-1.5 m resolution, marks a new imaging category.

**CORE INNOVATION**

The company aims to scale to a 10-20 satellite constellation by 2029, with growth driven by global data sales through channel partners across defence, climate and commercial use cases.

The core innovation lies in synchronising optical and SAR sensors on a single platform, an engineering challenge that has traditionally limited their combined use, explained Suyash Singh, CEO and Co-Founder of GalaxEye.

**OPTICAL IMAGING**

While optical imaging provides intuitive, high-resolution visuals, it is constrained by cloud cover and

lighting conditions. SAR, on the other hand, can capture data through clouds and in darkness but is harder to interpret, Singh added.

To achieve this, the company has built a system that captures optical and SAR data simultaneously from the same angle, enabling real-time fusion instead of post-processing.

GalaxEye plans to cater to both government and commercial customers.

# Not annualized for the quarter ended  
1 The above is an extract of the detailed format of financial results for the quarter and year ended March 31, 2026, filed with the Stock Exchanges under Regulation 33 and Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of financial results for the quarter and year ended March 31, 2026 is available on the Stock Exchange websites (www.bseindia.com and www.nseindia.com) and on the website of the Company (http://www.tataelebusiness.com).

2 (a) Exceptional items comprise of the following:  
The company has received a demand of Rs. 3.80 Crores from Term Cell of Department of Telecommunications (DoT) pertaining to legacy mobility subscribers connections for the period FY 2007-08 to FY 2011-12 which has been provided in the books of account during the quarter ended June 30, 2025 and the year ended March 31, 2026.  
(b) The Government of India on November 21, 2025 consolidated 29 existing labour legislations into a unified framework comprising four Labour Codes, viz., Code on Wages 2019, Code on Social Security 2020, Industrial Relations Code 2020 and Occupational Safety, Health and Working Conditions Code 2020 ( 'New Labour Codes'). The Ministry of Labour & Employment has published draft Central Rules and FAQs to enable assessment of the financial impact due to notification of New Labour Codes. The Company has assessed and disclosed the incremental impact of these changes on the basis of opinion obtained and consistent with guidance provided by The Institute of Chartered Accountants of India (ICAI). Considering the non-recurring nature of this impact, the Company has disclosed such Statutory impact of New Labour Codes under exceptional items in results for the quarter ended December 31, 2025 and year ended March 31, 2026. The incremental impact consisting of gratuity cost of Rs. 3.98 Crores and leave encashment cost of Rs. 0.07 Crores primarily arise due to changes in wage definition.

(c) The Hon'ble Supreme Court of India (SC), vide its judgment dated October 24, 2019, upheld the definition of Adjusted Gross Revenue (AGR) as interpreted by the Department of Telecommunications (DoT), resulting in significant liabilities for the telecom operators. Subsequently, on July 20, 2020, and September 01, 2020, the SC passed orders treating as final the calculations submitted by DoT in its application, which mentioned an amount of Rs. 16,798 Crores recoverable from the Tata Group of Companies (the AGR Dues) and directed that no dispute can be raised about it and no recalculation and self-assessment can be undertaken. The SC further ordered Telecommunications Service Provider (TSPs) to pay 10% of the total AGR dues, as demanded by DoT, by March 31, 2021, and to discharge the balance in ten equal annual instalments from April 1, 2021 to March 31, 2031, with each instalment payable by March 31 of the relevant year. AGR dues of Rs. 16,798 Crores were apportioned between the Company and its holding company, Tata Teleservices Limited (TTSL), based on internal estimates. While AGR was computed on a year-wise basis, DoT did not provide a circle-wise break-up. Accordingly, the Company continued to recognize interest on AGR Dues in compliance with the accounting standards, without prejudice to its legal rights, claims, remedies and contentions available under law. DoT also raised multiple Spectrum Usage Charges (SUC) claims for the financial years till 2016-17 that should have been part of the SC order. The Government of India announced relief measures for telecom service providers, pursuant to which DoT, vide its communications dated October 14, 2021, and June 15, 2022, amongst other things, granted an option of a four-year moratorium on AGR dues up to FY 2018-19, i.e., covering (i) dues up to FY 2016-17 mentioned in the SC order, and (ii) additional dues for the period up to FY 2018-19 not covered by the Supreme Court order. The Company and TTSL exercised the option of both categories of AGR Dues. However, they did not opt for conversion of interest into equity and elected to pay the interest along with the AGR dues on the due dates as per the terms of the moratorium.

The four year moratorium period has ended, and under its terms, the AGR dues are payable in six equal annual instalments, with the first instalment due by March 31, 2026. The Company and TTSL also approached the Hon'ble Supreme Court multiple times to allow correction of errors including reverification of the documents for allowing pass-through costs that were outside of the AGR judgement, however the SC did not allow correction of errors and/or reverification of documents and maintained the tabulated AGR Dues at Rs. 16,798 Crores for Tata Group of Companies. During the current quarter, DoT has shared with the Company its final AGR outstanding up to FY19 and the schedule of six annual instalments commencing from March 31, 2026. While the DoT letters provide break up of AGR outstanding for the Company and TTSL separately, circle/year wise calculation of dues have still not been made available. Pursuant to the documents available for AGR instalment payments for both the Moratoriums, the Company reassessed the provisions relating to License fee and SUC including penalty and interest on penalty, resulting in a write-back of provision amounting to Rs. 666.70 Crores (while the equivalent amount has been added in the outstanding amount of TTSL) to align the carrying value of provisions with the revised liability as per final outstanding shared by DoT. The aforesaid adjustment represents a revision in estimates in accordance with Ind AS 37 and Ind AS 8. Considering the nature and materiality of the item, the same has been disclosed as an exceptional item in the financial statements. Further, the Company has paid the annual instalment due on March 31, 2026, amounting to Rs. 615.42 Crores for AGR dues (LF and SUC dues) tabulated in the SC Orders and Rs. 37.56 Crores for AGR related dues up to the financial year 2018-19 not tabulated in the SC Orders. The Company has also filed the stipulated compliance affidavit in The Hon'ble Supreme Court on April 06, 2026.

(d) During the quarter and year ended March 31, 2026, the Company recognized expenses of Rs. 3.90 Crores on vendor reconciliation, in relation to the Consumer Mobility Business demerged in 2019.  
3 During the year, the company has reassessed the useful life of certain categories of network assets based on internal assessment and technical evaluation, and accordingly has revised the estimate of its useful life from 18 years to 25 years in respect of those assets. Consequently, the depreciation charge for the quarter and year ended March 31, 2026 is lower by Rs. 5.90 Crores and Rs. 23.91 Crores respectively.  
4 The above financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Company at its meeting held on April 23, 2026.
