## TVS Motor Company showcases TVS iQube electric scooter at the Makina MotoShow in Philippines

- *TVS iQube has cutting-edge EV technology, robust build quality and class leading comfort of a premium scooter with zero tail pipe emission*

**Manila, April 27, 2024:** TVS Motor Company (TVSM) - a leading global automaker that operates in the two and three-wheeler segments – is displaying its electric scooter, TVS iQube, for the first time at the Makina Motoshow in Manila, Philippines. TVS iQube has cutting-edge EV technology, robust build quality and class leading comfort of a premium scooter with zero tail pipe emission. It is already the choice of 300,000 customers globally. TVS iQube represents the future of urban commuting – a perfect blend of style, performance, and environmental responsibility.

TVS iQube comes with a real-world range of 100 km on a single charge, rated top speed of 78 KM/H, choice of ECO/POWER mode and acceleration from 0-40 KM/H in just 4.2 seconds. It has two Li-Ion battery packs with a 650W carry-along-charger that charges the vehicle from 0-80% in 4 hours and 30 minutes. The carry-along-charger can be plugged into any 5A household socket.

TVS iQube offers a host of intelligent connected features such as 7 inch TFT cluster with HMI control, intuitive music player control, OTA updates, vehicle health and safety notifications, multiple Bluetooth and cloud connectivity, geofencing, QPark assist, infinity theme personalisation, voice assist, TVS iQube Alexa skillset and much more.

The Makina Motoshow generates sustained interest from auto enthusiasts and TVSM looks forward to apprising visitors of its technological prowess and eco-friendly transportation solutions.

### **TVS iQube S is built on three pillars:**

**1. Modern & Practical Design:** The TVS iQube S has a contemporary look and impeccable build quality. With **five exciting colours**, one can choose a style statement of their own. Powerful LED headlamps with bright hazard lamps are designed for enhanced visibility and safety. A **seven-inch TFT** cluster, with an **intuitive five-way joystick** makes it easy for interaction, music control, theme personalisation, proactive notifications and much more. A **large 32 litre storage** under the seat, a wide floorboard and baggage hooks provide ample utility on the move. **The long and wide seat** is comfortable for both individual and family use making the TVS iQube S a practical and smart mobility choice.

**2. Unmatched Performance:** The TVS iQube S is powered by a powerful **4.6 kW** hub mounted motor that gives a top speed of **78 km/h** and acceleration from **0-40 km/h in just 4.2 seconds** at rated load. It comes with two battery packs of advanced Lithium-ion chemistry with a total capacity of **3.4 kWh**, designed and manufactured in-house

at TVS Motor. This combined with an intelligent in-house BMS (Battery Management System) delivers a real-world range of **100 kms** per charge. The EV powertrain in TVS iQube is **IP-67 compliant** providing strong resistance to water and dust exposure. TVS iQube S comes with a **650 W** portable carry along charger with a charging time of **4.5 hours from 0-80% SOC** and ease of use with any **5 Amp** household socket that makes home charging very convenient and affordable.

**3. Connected Technology – TVS SMARTXONNECT™:** The TVS iQube S is power packed with new age technology and smart features. The **TVS SMARTXONNECT™** platform has **enhanced navigation system, telematics unit, anti-theft, geofencing features, crash/fall alert** just to name a few. Any smart phone can be connected with the dedicated TVS Connect app which displays real-time battery status, ride statistics and enables music control while riding using the HMI interface. **The Alexa skillset** allows the use of voice commands to access information. The platform also ensures 100% vehicle wellness through proactive diagnosis and timely service alerts given on the dashboard. Not only incoming calls and SMS alerts but also social media app notifications are provided.
