For Immediate Release

TAKE Solutions Chosen by SupplyChainBrain as a "2012 Great Supply Chain Partner"

Feedback from TAKE Solutions' Customers and Partners Once Again drives the Company to the Prestigious List of 100 Great Supply Chain Partners

Chennai, India, July 25, 2012 TAKE Solutions, a technology solutions leader in Supply Chain Management (SCM) and Life Sciences (LS) domains, today announced it has been recognized by SupplyChainBrain as a "2012 Great Supply Chain Partner" in the publication's 10th annual list. The list identifies 100 Great Supply Chain Partners, which the publication creates after receiving hundreds of nominations from companies of all sizes doing work in every aspect of supply chain management. The distinction is driven by customer feedback and satisfaction, reserving the honor for those companies who received the most favorable recommendations from its customers and partners.

"We are honored to once again receive this industry recognition," said Matt Walker, EVP of Supply Chain. "We work diligently to help companies extend value across their enterprise and throughout their mobile and connected supply chain. To be nominated by our customers in this way is a reflection of these efforts, as well as the strong relationships we have built.

The award comes on the heels of TAKE Solutions' recent customer and partner event, Converge 2012, at which attendees were able to discuss TAKE's ability to drive successful supply chain management and execution for its customers. TAKE Solutions allows customer companies to integrate across systems, facilities, enterprises, and trading blocs to make smarter supply chain decisions.

"SupplyChainBrain's 10th annual list of 100 Great Supply Chain Partners is the result of a six-month on-line poll in which supply chain professionals were asked to nominate vendors and service providers whose solutions have made a significant impact on their company's efficiency, customer service and overall supply chain performance," said Brad Berger, Publisher, SupplyChainBrain. "Our compliments to TAKE Solutions, on making this select list of 100 companies who received the most qualified nominations."

Nominations were received for hundreds of trading partners in every aspect of supply chain management. The 2012 July/August issue of SupplyChainBrain magazine includes the select list of companies whose solutions and services were impressive and impactful enough to earn this honor.

About TAKE Solutions

TAKE Solutions, Ltd. [BSE: 532890 | NSE: TAKE] is a leading global business technology company with domain expertise in Life Sciences (LS) and Supply Chain Management (SCM). TAKE provides cost-effective and comprehensive solutions for enterprises across diverse sectors including pharmaceuticals, high technology, consumer packaged goods, oil/gas, and automotive.

TAKE's SCM product suite includes distinct technology with embedded IP that spans enterprise mobility, trading partner collaboration, and material tracking. In the LS domain, TAKE offers IP based software and extensive knowledge-based solutions to enable efficient clinical, regulatory, safety and commercialization processes. TAKE has been recognized as a leader by IDC's MarketScape Worldwide Life Sciences R&D IT Outsourcing for 2011.

TAKE's global headquarters is in Chennai, India; its U.S. headquarters is located in Princeton, New Jersey. TAKE has a proven track record as a trusted partner in delivering world-class solutions to more than 400 customers worldwide. For more information, please visit www.takesolutions.com.

About SupplyChainBrain - www.supplychainbrain.com

SupplyChainBrain, the world's most comprehensive supply chain management information resource, is accessed year round through a wide range of ever evolving multi-media formats by hundreds of thousands of senior level industry executives. In addition to addressing the fundamental principles of supply-chain management, SupplyChainBrain identifies emerging trends, technologies and best practices, forward thinking ideas and cutting edge solutions, and continues to write and report about these as they evolve and mature.
