

FOR IMMEDIATE RELEASE

TAKE Solutions' Manufacturing Customer Recognized with 2012 Manufacturing Leadership 100 (ML100) Award

Midmark Corporation recognized in Global Value Chain category for outstanding project achievements at 2012 Manufacturing Leadership Summit

Chennai, India - May 3, 2012 - TAKE Solutions Ltd. [BSE: 532890 | NSE: TAKE], a leader in the Supply Chain Management and Life Sciences domains, today announced its customer, Midmark Corporation, was recognized with a 2012 Manufacturing Leadership 100 (ML100) Award in the Global Value Chain category. Midmark was honored for using TAKE's Gemini Series® Enterprise Mobility Solution to accomplish quantifiable project achievements. The award ceremony took place yesterday at special gala reception during the Manufacturing Leadership Summit at the Breakers Resort in Palm Beach, FL.

"TAKE Solutions Gemini Series enterprise mobility solutions have provided us with a foundation to establish a disciplined mobility practice across manufacturing floor operations," said Nikki Lange, Project Manager, Midmark Corporation. "Leveraging TAKE's mobility portfolio with our existing ERP system, we have been able to meet the need of floor operations and give them the full ability to use handheld scanners to collect data, gain inventory access and perform transactions such as accurate label printing, all in real-time. We've resolved the primary concern of shipping incorrect quantity or parts to customers worldwide by 75 percent within a month of implementation."

"Gemini Series' Enterprise Mobility leverages a distinctive combination of supply chain experience and the technology aspects of mobility—specifically within the Oracle E-Business Suite environment," said Matt Walker, EVP Supply Chain, TAKE Solutions. "We were able to help Midmark extend its mobile data collection and work instructions capabilities to meet the needs of floor operations. The increased performance in pick confirm transactions and material inventory management have resulted in more efficient movement within manufacturing and improved on time shipping with accuracy."

The ML100 Awards, now in their eighth year, are sponsored by Manufacturing Executive, the global community for manufacturing leadership and producer of the Manufacturing Leadership Summit. The awards honour manufacturing companies and individual manufacturing leaders that are shaping the future of global manufacturing. Award nominees describe their projects and individual achievements using a nomination form. These nominations are entered into specific categories and evaluated by a panel of expert judges.
