

Tata Elxsi highlights digital innovations at Computex 2018 in Taipei, Taiwan

June 04, 2018, Taipei: Tata Elxsi, a global design and technology services company, is showcasing solutions and services for digital technologies including IoT, AI and Extended Reality at **Computex Taipei between June 5-9, 2018.**

“Tata Elxsi is working with leading operators, OEMs and ODMs across industries such as automotive, communications, broadcast, consumer electronics and healthcare for digital transformation”, said **Nitin Pai, Senior Vice President - Marketing, Tata Elxsi.** “We look forward to collaborating with Taiwanese companies to help them create smarter, connected products and services for the global market.”

Tata Elxsi’s Computex Solution Showcase includes:

Edge IoT platform: Tata Elxsi’s powerful software platform allows easy integration, management and control of diverse devices and sensors for applications such as smart home and connected healthcare.

Edge AI solution: Tata Elxsi’s Deep Neural Network (DNN) edge compiler allows AI algorithms to be embedded on low power, low compute and unconnected devices, transforming them into smart edge devices.

ADAS and driverless car solutions: Tata Elxsi brings a complete portfolio of proven algorithms including *autonomai*, Tata Elxsi’s full software stack for autonomous driving, brings together AI and deep learning to enable perception, multi-sensor data fusion, navigation and planning for driverless vehicles.

Cloud based Test Automation: FalconEye is an industry leading test automation product for testing CPEs, gateways, set-top boxes and mobile devices. The latest release now supports cloud-based test automation of mobile devices, from OS to application level.

Other solutions on display include Android TV implementation for leading operators, and AR/VR applications for production, marketing, operations and after-sales service.

Tata Elxsi will also feature at the 2018 India Taiwan Cooperation Forum (ITCF) on 8 June, at the Taipei International Convention Center.

About Tata Elxsi

Tata Elxsi is a global design and technology services Company and a part of the \$100+ billion Tata Group. Headquartered in Bangalore, it works with customers across industries such as automotive, broadcast, healthcare and telecom for product and software development.
