Dear Sirs,

**Successfully synchronization of 525 MW Unit 2 of
Maithon Mega Power Project**

The Company today announced the successful synchronization of the second unit of 525 MW (Unit 2) of its Maithon Mega Power Project in Dhanbad, Jharkhand under the requisite standard requirements. The first Unit of 525 MW (Unit 1) was commissioned in September 2011.

With this development, Tata Power's gross generation capacity has touched 5297 MW, making it the largest private sector power generating company as well. The Company is also one of the largest renewable players in the country with significant capacity in wind and solar. The current generation mix of the Company is as follows:

Thermal	4447 MW
Non-GHS Clean Gen	850 MW
Total	5297 MW

The Press Release issued by the Company is attached for your ready reference.

Yours faithfully,
For The Tata Power Company Limited

H M Mistry

Tata Power crosses 5000 MW capacity mark, reaffirming its position as the largest integrated power company in India

Successfully synchronizes 525 MW Unit 2 of Maithon Mega Power Project

Mumbai, Delhi, 19th March 2012: Tata Power, India's largest integrated power utility, today announced the successful synchronization of its second unit of 525 MW (Unit 2) of its Maithon Mega Power Project in Dhanbad, Jharkhand under the requisite standard requirements. The first Unit of 525 MW (Unit 1) was commissioned in September 2011.

With this development, Tata Power's gross generation capacity has touched 5297 MW making it the largest private sector power generating company as well. The Company is also one of the largest renewable player in the country with significant capacity in wind and solar. The current generation mix of the Company is as follows:

Thermal	4447 MW
Non-GHS Clean Gen	850 MW
Total	5297 MW

Maithon Power Limited (MPL), the 74:26 Joint Venture between Tata Power and Damodar Valley Corporation (DVC) is implementing a 2 x 525 MW coal-fired power project power in Jharkhand. MPL is the first successful public-private partnership in green field generation project in the country.

Speaking on this milestone, **Mr. Anil Sardana, Managing Director, Tata Power**, said, *"The synchronisation of Maithon 525 MW Unit 2 today is a significant milestone. With this development, Tata Power's gross generation capacity has touched 5297 MW reaffirming its contribution as the largest integrated power company in India."*

I take this opportunity to thank the Government of Jharkhand, DVC, the Government of India in supporting us at various stages, The success of Tata Power in all aspects of power value-chain starting from mines to consumer business, is entirely due to its highly dedicated employees, associates and the local communities involved, who have put in their relentless efforts in achieving a sustainable performance."

MPL has firmed up fuel supplies from Coal India Limited and its subsidiaries. Bharat Coking Coal Limited and Central Coal Fields Limited are committed to supplying coal to the project.

PRESS RELEASE

and Damodar Valley Corporation (DVC) being set up in Dhanbad District of Jharkhand State. Maithon Power Project is a Mega Power Plant of 1050 MW, green field coal based generation project located at Maithon in the state of Jharkhand. The site is about 250 km from Jamshedpur & Ranchi and 25 km from Asansol. In addition to supplying power to DVC, power from the Maithon Project is to be exported to power deficit northern states.

About Tata Power:

Tata Power is India's largest integrated private sector power utility with an installed generation capacity of 5297 MW and a presence in all the segments of the power sector viz. Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. The Company has successful public-private partnerships in Generation, Transmission and Distribution - 'Tata Power Delhi Distribution Limited' with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. It has acquired 30% stake in Coal Companies at Indonesia and is implementing the first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. With its track record of technology leadership, customer care and redefining contours of the Indian power sector, Tata Power is poised for a five-fold growth and committed to 'lighting up lives' for generations to come.
