Tech Mahindra Becomes First Indian IT Services Company to Achieve TMMi Level 5 Certification

Pune – August 08, 2013 – Tech Mahindra Ltd. a specialist provider of connected solutions to the connected world and enabling future digital enterprises, today announced that its Global Test Factory has achieved TMMi Level 5 capability. This makes Tech Mahindra the first Indian Information Technology company in the world to achieve this prestigious certification, with zero exceptions. This certification, by TMMi Foundation, acknowledges the highest level of process maturity that is being practiced within the Test Factory.

Tech Mahindra's Test Factory drives consistency, standardization and agnostic acceptance of testing units or work packages thus enhancing quality, test velocity and low running costs. It provides a centralized testing framework with established KPIs, governance model, enterprise wide metrics and uniform testing process. The "Test Factory" embeds the fundamentals of continuous improvement, best practices and innovation, leveraging economies of scale and maximizing resource utilization

Martin Adcock - Managing Director, Experimentus said *"This is an outstanding achievement and we are delighted to have played a part in their success. This demonstrates to their clients and the industry, that the Tech Mahindra Global Test Factory has been independently certified as achieving the highest standards against the TMMi model. This certainly sets the standard not only for their peers, but for the industry to compare capabilities and strive to achieve these benefits."*

Dr Richard Sykes - Chair, TMMi Foundation said *"On behalf of the TMMi Foundation I am delighted to be able to celebrate its achievement by one of the leaders of our industry, Tech Mahindra, in establishing itself as a TMMi level 5 company, a beacon to us all".*

T S Krishnakumar, Head of Global Test Factory, Tech Mahindra said *"This certification demonstrates our commitment to being world class in our testing process. The consistent use of these mature test practices, procedures and tools will add significant value to our clients."*

Tech Mahindra's Global Test Factory was established with a vision of creating a world-class test delivery center of excellence. With continuous innovation and pioneering practices, the Test Factory redefined the manner in which testing services were conducted. Since inception, the Test Factory has grown from strength-to-strength and has been successful in bringing value to an expanding customer base.

The achievement of this highest level of industry certification confirms and demonstrates Tech Mahindra's place at the forefront of innovation and service delivery in Test and Quality Assurance services, across a global marketplace.

Tech Mahindra's next Generation Global Test Factory, designed for being adaptive, intelligent and high performance is leading the way to the future of IT testing services. Through standard, consistent and repeatable test processes, lean principles and shared services, we exceed our customers' expectations by maximizing business value of assurance and testing to be the choice of global customers for outsourced testing services. At the Global Test Factory, we engage right talent and passion of people, who believe that quality is not an event, but a habit.

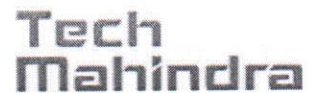

About TMMi

TMMi (Test Maturity Model integrated) is the international standard that measures processes, activities, techniques, operations, design and execution of Testing and Software Quality Assurance activity. Level 5 certification provides assurance of effectiveness in Testing and Quality Assurance activities, including innovation and efficiency, benefiting not only ourselves but our clients too.
