THE UNITED NATIONS MISSION FOR EBOLA EMERGENCY RESPONSE

Mumbai – Nov 7, 2014

In September the Secretary-General stated his intention to establish the United Nations Mission for Ebola Emergency Response (UNMEER) and set forth the Mission's five objectives, six guiding principles and 12 mission critical actions deemed necessary to stop the outbreak in the affected countries and prevent its further spread. Those steps are estimated to cost almost $1 billion over the next six months.

The Security Council determined that the outbreak is a "threat to international peace and security" and established UNMEER and deployed advance teams to the mission headquarters in Accra, Ghana as well as to the most-affected countries, Guinea, Liberia and Sierra Leone, to accelerate international and regional efforts to support national efforts.

Government of India has announced $ 12 million contribution to the United Nations to help it fight the deadly Ebola virus in the African continent. Trigyn Technologies Limited, an Indian multinational company having head quarter in Mumbai, India has been extending Information Communication Technology support to this initiative of UNMEER.

About Trigyn Technologies Limited

Trigyn Technologies is a public multi-national Information Technology firm providing custom software solutions, Remote Infrastructure Management Services and consulting services to clients in 16 countries across Asia, North America, Europe, and Africa.
