INCENTIVISING FARMERS

In a First, Govt Inks Deal for Contract Farming of Pulses

Shambhavi Anand

New Delhi: The government, for the first time, has entered into contract farming deals with farmers in states including Tamil Nadu, Bihar, Jharkhand and Gujarat to grow pulses (tur and masur) on 1,500 hectares of farmland.

The pilot deal is part of a plan to achieve self-sufficiency in pulses by expanding cultivation in states where farmers are traditionally not inclined to grow pulses, a senior official aware of the development told ET.

As per the deal, signed between farmers and the National Cooperative Consumers' Federation of India (NCCF), the farmers will grow tur and masur on their land and the agency will procure a portion of their produce at minimum support price (MSP) or market price, whichever is higher, for the government's buffer stock.

"The quantity of procurement will not be much vis-a-vis the buffer stock this year, but we expect it to increase in the coming years when we are able to bring in more area under contract farming," the official said.

At present, despite the government's commitment to procure the entire produce of pulses growers who have registered themselves, government agencies are not able to

meet the procurement targets because of higher prices offered by private players as a decline in production has pushed up prices.

Pulses inflation has been high since last year as erratic rainfall reduced the crop size for two consecutive years, forcing the government to remove import restrictions to increase domestic supply.

The government has promised farmers to procure unlimited amounts of tur, urad and masur at MSP or market price, whichever is higher, provided they register on its portal.

India's retail inflation shot back to a nine-month high of 5.5% in September after two months of relief.

Merlin Group Targets ₹20k crore Sales Over 7-8 Years

Sobia Khan

Kolkata: Merlin Group, with projects across central Calcutta and its outlying suburbs along the Hooghly river, anticipates achieving sales of ₹20,000 crore over the next 7-8 years, fuelled by

a robust real estate market and ongoing projects. The firm, which rebranded itself recently, plans to invest ₹8,000 crore during this period to develop its portfolio across major cities.

"Over the past four decades, we have maintained a consistent growth trajectory. The company is in the process

of developing 20 million square feet of additional real estate, which is anticipated to double the revenue within the next 7 to 8 years to over ₹2,500 crore annually from FY23. Currently, Merlin group's annual revenue stands at approximately ₹1,500 crore," said

Saket Mohta, managing director, Merlin Group.

At present, 20 million square feet of real estate is under development in Kolkata and its surrounding regions. Merlin is also present in other cities, such as Pune, Chennai, and Bhubaneswar. "Our strategic focus is on

Maharashtra, identifying it as a key growth market, with particular emphasis on Pune and Navi Mumbai for potential development. We are in the process of scouting for land parcels in these regions. Numerous projects are already in development stages in Pune," Mohta added.
