The machine has been carefully engineered to ensure minimum rejection and a good film alignment.

No drying hood is required in this machine, making it quite low on power consumption and space requirement. This gives a clear cost advantage to converters in comparison to solvent-based lamination machines.

Exhibition dates: 05 to 08 April 2016

Venue: India Expo Mart, Greater Noida, Delhi NCR, India.

Uflex will be in Hall No. 1, Stall Number 1B.
