Sub: Press Release – Order Book

Dear Sir/Madam,

Pursuant to regulation 30 of SEBI (Listing (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are submitting herewith copy of the press release on award of order from ONGC Limited.

The Press release is self-explanatory.

This is for your information and record.

Thanking You,

Yours Faithfully,
For United Drilling Tools Limited

Anand Kumar Mishra
Company Secretary
M. No. FCS-7207

Award of Order from ONGC

New Delhi, Tuesday, March 10, 2026, United Drilling Tools Ltd. (UDTL) (BSE - 522014, NSE - UNIDT) is delighted to announce that it has secured a significant order from **Oil and Natural Gas Corporation (ONGC)** Limited, one of India's most respected Public Sector Undertakings (PSUs) in the oil and gas sector, for the supply of Large Outer Diameter (OD) casing pipes and the order **valued at INR 37.28 MN** which **scheduled to be fulfilled** over a period of approximately **5-6 Months**.

These pipes represent a **vital part of the structural casing string installed in the wellbore**, playing a crucial role in stabilizing the well and supporting subsequent casing strings during offshore drilling operations. Their **robust design** ensures operational safety, structural integrity, and the **long-term reliability of wells** operating in challenging offshore environments.

UDTL is currently the **only supplier in India for these specialized products**, which are critical for drilling and oilfield operations.

Considering the geopolitical tensions involving Israel, Iran and the United States have resulted in heightened volatility in global energy markets and a noticeable **increase in international crude oil prices**. In view of the anticipated increase in drilling activity driven by higher crude oil prices, the Company expects a **favourable demand environment for its products** in the near to medium term, which may create additional growth opportunities.

This prestigious order is not only a reaffirmation of UDTL's strong partnership with ONGC but also a clear endorsement of the **Company's stringent quality standards**, and customer-focused approach. **ONGC's repeated selection of UDTL** over the years is a authentication to the deep trust and satisfaction that the Company has **consistently delivered** through its high-performance products and dependable services.

This high-tech product will be **manufactured and supplied domestically**, reinforcing UDTL's commitment to promoting indigenous manufacturing capabilities. By producing these pipes locally, the Company contributes to **reducing import dependence** and **optimizing foreign exchange utilization**, while simultaneously strengthening domestic industrial capabilities in the oil and gas equipment sector.

The order also **strengthens the Company's order book** and revenue visibility, supporting both short-term operational stability and long-term growth.

Commenting on the order awarded, Shri Jyoti Kumar, GM-Sales and Marketing said that "we are pleased to secure this order for 36-inch casing connectors, which

incorporate advanced multi-start thread technology. This design allows faster make-up with minimal rotations, reduces the risk of cross-threading during installation, and provides the structural strength required for drivable conductor casing. These features help operators improve installation efficiency while ensuring reliability in demanding offshore conditions.”

About UDTL

Striding successfully since 1985, based out of Noida, Uttar Pradesh, India, UDTL is a *leading Manufacturer of large OD casing pipe with multi start high performance connector, Wireline & well service equipment, Gas lift equipment and Downhole Tools*. All the equipments can be supplied with most reliable designs and quality and are very competitively priced as compared to other suppliers.

UDTL is dedicated to manufacture high-quality products of field-proven test designs in conformity with international standards as per **ISO & API standards** and continues to improve and innovate.

As of today UDTL has **32 registered Trademarks**, out of which 24 are registered in India & rest 08 are registered in other Countries.

Also, as regards Patents, there are **14 Design Patents** registered, out of which 09 are registered in India, while rest 05 are registered in UK. We have applied Patents in India & other countries wherein **08 Patents** received in **India**.
