Secures Order from Vedanta Limited ('Cairn Oil & Gas')

New Delhi, Thursday, April 23, 2026, United Drilling Tools Ltd. (UDTL) (BSE – 522014, NSE – UNIDT), a leading manufacturer and prominent supplier in India of specialized, high-technology equipment for the oil and gas sector, is pleased to announce that it has secured a new order from Vedanta Limited, a major private sector company in the oil and gas industry, for the **supply of Critical Oilfield Equipment such as Tubing, Pup Joints and crossovers** and the order valued at **INR 31.66 MN.**

Under the terms of the contract, UDTL will **supply a range of essential oilfield components**, including tubing, pup joints, and crossovers – each playing a vital role in oil and gas production operations.

Tubing is primarily used for the **extraction of oil and gas from the well** and is distinct from casing pipes, which are installed to stabilize the wellbore. Tubing is typically installed within the casing string to **facilitate efficient hydrocarbon flow** to the surface. **Pup joints** are shorter sections of tubing used to **adjust and maintain the required length of the tubing string** within the well, ensuring precise spacing and alignment. **Crossovers** are specialized connectors designed to **join tubing sections with different thread types or connection standards**, enabling compatibility across various components used in drilling and production systems.

This order further reinforces UDTL's strong positioning as a trusted and prominent domestic supplier of high-quality drilling and production equipment. The company's advanced manufacturing capabilities, technical expertise, and commitment to stringent quality standards continue to drive its growth and strengthen relationships with key industry players.

The order is **expected to be executed within 3-4 months**, in accordance with Vedanta's specifications and stringent quality standards.

Commenting on the order awarded, Shri Govind Sharma, GM-Global Sales and Marketing said that "We are pleased to receive this order from Vedanta Limited, which reflects their confidence in our capabilities and product quality. As one of India's prominent manufacturers of these high-technology products, we remain committed to supporting the energy sector with reliable and efficient solutions."

UDTL remains focused on delivering excellence through engineering innovation, robust manufacturing processes, and timely execution. The company continues to expand its footprint across domestic and international markets.

About UDTL

Striding successfully since 1985, based out of Noida, Uttar Pradesh, India, UDTL is a *leading Manufacturer of large OD casing pipe with muti start high performance*

connector, Wireline & well service equipment, Gas lift equipment and Downhole Tools. All the equipments can be supplied with most reliable designs and quality and are very competitively priced as compared to other suppliers.

UDTL is dedicated to manufacture high-quality products of field-proven test designs in conformity with international standards as per **ISO & API standards** and continues to improve and innovate.

As of today UDTL has **32 registered Trademarks**, out of which 24 are registered in India & rest 08 are registered in other Countries.

Also, as regards Patents, there are **14 Design Patents** registered, out of which 09 are registered in India, while rest 05 are registered in UK. We have applied Patents in India & other countries wherein **08 Patents** received in **India**.
