*Annexure-A***Press Release****Unimech Aerospace and Manufacturing Limited Signs Long-Term Supply Agreement with FACC**

**Bengaluru, India, 30 June 2026** – Unimech Aerospace and Manufacturing Limited has signed a long-term supply agreement with FACC Operations GmbH, Austria, one of the world’s leading aerospace Tier-1 suppliers and a strategic partner to major global aerospace OEMs.

The agreement covers the manufacture and supply of precision-engineered aerospace components and flying parts and was awarded to Unimech following a competitive global sourcing process involving international suppliers.

The signing of the agreement marks the culmination of a multi-year engagement involving technical evaluations, capability assessments, quality reviews, commercial negotiations, and extensive discussions between the two organizations. The award reflects Unimech’s engineering expertise, manufacturing capabilities, quality systems, and ability to meet the stringent requirements of global aerospace customers.

As part of the program onboarding process, Unimech will undergo a qualification and industrialisation phase over the coming quarters, including first article approvals, process validations, and production readiness activities before transitioning into serial production.

The agreement supports Unimech’s strategic objective of expanding its Precision Components & Parts business by increasing participation in long-term aerospace production programs while further strengthening its position within the global aerospace supply chain.

**Mr. Anil Kumar Puttan, Chairman & Managing Director, Unimech Aerospace and Manufacturing Limited, said:** "This agreement reflects the confidence global aerospace customers place in our engineering, manufacturing, quality and delivery capabilities. We are particularly pleased that this opportunity was awarded through a highly competitive global sourcing process, demonstrating the competitiveness of our capabilities on an international stage. We look forward to working closely with FACC during the qualification and industrialisation phase and building a long-term partnership supporting global aerospace programs. This milestone further strengthens our Precision Components & Parts business and reinforces our position as a trusted manufacturing partner to leading aerospace customers worldwide."

**Thomas Kraus, Executive Vice President Procurement of FACC:** "Following a comprehensive evaluation process, Unimech demonstrated the technical capability, quality systems, manufacturing competence and commitment required to support our aerospace programs. We look forward to working together through the qualification phase and developing a successful long-term partnership."
