Dear Sirs,

Sub : updates -Ammonia - IV plant shut down.

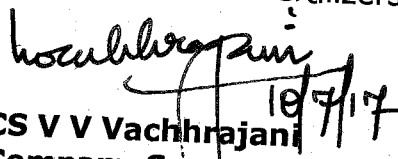

Kindly note that an emergency shutdown of Ammonia-IV plant was taken on 06/07/2017 due to detection of leakage of high pressure process gas from hot header of reformer box. Urea-II plant also shutdown due to non-availability of CO₂ gas which is by product of Ammonia-IV plant. All other plants of GSFC are operational with supply of Ammonia from Ammonia Storage Tanks. Efforts are being put to rectify the problem and put back the plant on regular operation.

This is for your kind information please.

Thanking you,

Yours faithfully,

For Gujarat State Fertilizers & Chemicals Ltd.,

CS V V Vachhrajani
Company Secretary &
Vice President (Legal)
