Q2 & H1 FY27 Management Commentary

Digital Transformation Driving Long-Term Value Creation

Mr. Sunil Agarwal, Managing Director, Vaibhav Global Limited said, "Q2 FY27 was an important transition quarter as we completed the migration of our retail websites to Shopify Enterprise. During the stabilisation phase, temporary integration-related issues affected digital conversion and revenue. Despite these challenges, consolidated revenue grew 7.0% year-on-year to ₹938.4 crore, while EBITDA stood at ₹76.2 crore, with a margin of 8.1%. With the migration substantially behind us, we now have a unified and scalable platform across brands and geographies. Our focus is on restoring digital momentum, improving customer acquisition and driving stronger operating leverage as we enter our seasonally important second half. Supported by European constant-currency growth, strong B2B performance and continued progress across proprietary brands, we remain confident in the business's medium-term growth potential."

Key Strengths

Resilience Through Cycles

A business that has absorbed five major model transitions and external shocks, turned into a profitable engine

✓ Multiple business-model transitions absorbed

Gemstones → Jewellery manufacturing → lifestyle products → retail → digital platform. Each transition changed the revenue model, not just the product

✓ Exited CDR early, by choice

Entered Corporate Debt Restructuring in 2010 with repayment due by 2020; the obligation was fully repaid by 2012—years ahead of schedule

✓ 20% CAGR in market cap since listing

From ~₹8 Cr listing raise in 1997 to a ~₹3,075 Cr market cap and ~₹3,692 Cr revenue, debt-free platform today (excl. dividends, which add further to total shareholder return)

✓ Germany: first full year of positive EBITDA

Margin compressed from 14–15% to ~7% after 2022's shift back to brick-and-mortar, then recovered to deliver its first full year of positive EBITDA in FY26

✓ Innovation converts directly to revenue

78,000+ ideas generated, 1,821+ new products launched, 3 design patents secured (incl. the USPTO-granted Arthritis Ring) — innovation contributes ~7% of Group revenue

✓ Growth culture retained through the hard years

Most long-tenured employees stayed through loss-making periods on the strength of internal trust — reinforced today by giving teams real ownership

A Portfolio of Scalable Consumer Brands

16 brands across categories and markets

Selective third-party additions

Close-up deals in categories such as collagen supplements, eyewear & select licensed lifestyle labels as additions

Voice of Customer as a Strategic Asset

Voice of Customer Portal

Unified Customer Feedback Hub
