Press Release Note: Vasa Denticity Ltd. Acquires 51% Stake in IDS Denmed Pvt. Ltd., Creating India's Largest Integrated Dental Supply Network

Vasa Denticity Ltd. (NSE: DENTALKART), India's fastest-growing dental products company and parent of the Dentalkart platform, has announced the strategic acquisition of 51% stake in IDS Denmed Pvt. Ltd., the country's largest traditional dental distribution company. This landmark deal unites two of India's most respected dental supply networks — one built online and the other offline — creating an unparalleled ecosystem serving dental professionals across India.

The acquisition marks a pivotal move toward building India's most comprehensive dental platform, combining Dentalkart's technology-led e-commerce strengths with IDS Denmed's unmatched offline distribution footprint and long-standing customer relationships.

Commenting on the acquisition, Dr. Vikas Agarwal, CEO of Vasa Denticity Ltd., said:

"This is more than an acquisition — it's the alignment of a common vision to empower dentists across every corner of India. IDS Denmed has built decades of trust in the dental community. By combining their offline leadership with our digital-first approach, we aim to deliver efficiency, reach, and innovation at a scale never seen before in Indian dentistry."

Founded in 2006, IDS Denmed has established a robust dealer and clinic network across metros and Tier 2/3 cities, known for its strong portfolio of global dental brands. Vasa Denticity, through Dentalkart, has rapidly grown to serve over 2.5 lakh dental professionals with 22,000+ SKUs, leveraging technology, transparency, and nationwide warehousing.

With this acquisition:

Vasa Denticity becomes India's largest dental supply company, both online and offline. The combined entity will expand its last-mile reach to over 90% of dental clinics in India. Synergies in sourcing, warehousing, and logistics will drive cost efficiencies and faster delivery.

The company plans to introduce AI-driven solutions, financing options, and education programs for dentists under a unified platform.

Mr. Sandeep Aggarwal, Co-founder of Dentalkart, added:

"We are thrilled to welcome the IDS Denmed team and dealer network into the Vasa family. Together, we will accelerate our mission to make high-quality dental care accessible and affordable for every practitioner in India."

The acquisition is a mix of cash and share swap, with the founding team of IDS Denmed continuing in leadership roles to ensure seamless integration and continuity.
