WABAG bags ‘Mega’ PPP order from CMWSSB, towards 45 MLD TTRO Plant in Chennai, reinforcing Water Reuse Leadership

Chennai, March 12, 2026: VA TECH WABAG (‘WABAG’), a leading pure-play water technology Indian multinational group, has secured a Letter of Award (‘LoA’) from the Chennai Metropolitan Water Supply and Sewerage Board (‘CMWSSB’) for the Refurbishment, Finance, Operate, Maintain and Transfer (‘RFOMT’) of a 45 Million Litres per Day (‘MLD’) Tertiary Treatment Reverse Osmosis (‘TTRO’) Plant at Kodungaiyur, Chennai, to be executed under the Public-Private Partnership (‘PPP’) mode.

The TTRO plant at Kodungaiyur, along with its associated distribution pipeline network, was originally developed by CMWSSB in 2019 to supply high-quality treated wastewater to industries located in the Manali–Ennore and Manali–Minjur industrial corridors in Chennai. Under the contract, WABAG will undertake the refurbishment and upgradation of the existing TTRO facility to restore its full treatment capacity of 45 MLD within a period of 18 months. Following the refurbishment phase, WABAG will operate and maintain the facility for a period of 18.5 years, ensuring reliable supply of treated water that meets the stipulated quantity and quality standards under the agreement.

Notably, WABAG is already operating the 45 MLD TTRO facility at Koyambedu, Chennai, which was designed, built, and commissioned by WABAG in 2019 to supply high-quality recycled water to industrial consumers. WABAG is also operating a 40 MLD TTRO facility in Ghaziabad, developed by WABAG under PPP mode, which supplies treated water to multiple industries in the Sahibabad Industrial Area, thereby supporting sustainable industrial water reuse and circular water management. The Kodungaiyur TTRO facility award further strengthens WABAG’s leadership in advanced water recycling and reuse solutions, reinforcing its role in enabling sustainable industrial water management and supporting Chennai’s transition towards a circular water economy.

Commenting on this development, Mr. S Varadarajan, Whole Time Director & Chief Growth Officer said, “We are delighted to secure this prestigious Recycle & Reuse project from our valued client, CMWSSB. We thank them for their continued trust and confidence in our technological expertise and execution capabilities. This project further strengthens our leadership in the Indian water sector and reinforces our position at the forefront of water recycling and reuse, which will play a critical role in enabling sustainable industrial water management and supporting Chennai’s long-term water security.”

Order Classification	Small	Medium	Large	Major	Mega
Domestic (in INR Crores)	Upto 100	100 to 250	250 to 600	600 to 1,000	Above 1,000
International (In USD Millions)	Upto 10	10 to 30	30 to 75	75 to 150	Above 150

About WABAG: With over a century of expertise, WABAG stands as a global leader in water technology, delivering innovative and sustainable solutions for both municipal and industrial needs. As a pure-play Indian Water Technology Multinational, WABAG provides end-to-end water solutions tailored to diverse requirements across the world. Powered by more than 2,000 water professionals operating in 25+ countries, WABAG positively impacts millions of lives every day. Over the past three decades, the company has designed and built 1,500+ water and wastewater treatment plants globally, earning its reputation as a trusted lifecycle partner. WABAG manages every phase of the water value chain — from design, engineering, supply, and construction to installation, commissioning, and long-term operations across multiple business models. Driven by a strong culture of innovation, WABAG operates cutting-edge R&D centres in Europe and India and holds 125+ intellectual property rights. Its vision aligns with the United Nations Sustainable Development Goals and core ESG principles, with an emphasis on conservation, resource optimisation, recycling, and reuse. As one of the world's foremost partners in water sustainability, WABAG continues to transform global water challenges into opportunities for a more resilient and sustainable future.

Annexure-I

a)	Name of the entity awarding the order(s)/ contract(s)	Chennai Metropolitan Water Supply and Sewerage Board ('CMWSSB')
b)	Significant terms and conditions of order(s)/ contract(s) awarded in brief	Refurbishment, Finance, Operate, Maintain and Transfer ('RFOMT')
c)	Whether order(s) / contract(s) have been awarded by domestic/ international entity	Domestic Entity
d)	Nature of order(s) / contract(s)	Refurbishment, Finance, Operate, Maintain and Transfer ('RFOMT') under Public-Private Partnership Mode
e)	Whether domestic or international	Domestic Project
f)	Time period by which the order(s)/ contract(s) is to be executed	Refurbishment and upgradation of the existing TTRO facility to restore its full treatment capacity of 45 MLD within a period of 18 months, followed by operation and maintenance of the facility for a period of 18.5 years
g)	Broad consideration or size of the order(s)/ contract(s)	Mega Order*
h)	Whether the promoter/ promoter group / group companies have any interest in the entity that awarded the order(s)/ contract(s)? If yes, nature of interest and details thereof	No
i)	Whether the order(s)/ contract(s) would fall within related party transactions? If yes, whether the same is done at arm's length	No

*Note: A 'Mega' order shall mean an order value above INR 1,000 Crores.
