WABAG strengthens Global Presence with Consortium Award of EIB-Funded Advanced Technology WWTP Project in Georgia

Chennai, March 20, 2026: VA TECH WABAG ('WABAG'), a leading pure-play Multinational Water Technology Group, has secured a consortium award of a 'Large' order from United Water Supply Company of Georgia LLC ('UWSCG') for the construction of a 19 Million Litres Per Day (MLD) Wastewater Treatment Plant ('WWTP') in Georgia. Funded by the European Investment Bank ('EIB'), the project involves the development of a state-of-the-art wastewater and sludge treatment facility at Kutaisi, the third-largest city in Georgia. The 19 MLD WWTP is designed for future expansion up to a capacity of 56 MLD.

The Engineering, Procurement & Construction ('EPC') scope of the project includes demolition of the existing plant, construction of the new WWTP, and installation of an effluent pipeline to the river. As the Consortium Leader, WABAG will undertake design, engineering, supply, installation, and commissioning of the treatment systems, along with training of client personnel and supervision of Operation & Maintenance (O&M) for a period of 12 months.

The plant will feature advanced mechanical and biological treatment with nutrient removal based on the activated sludge process, along with final sedimentation and UV disinfection. The project also includes sludge treatment facilities, solar sludge drying systems, Oduor control systems, and associated pumping infrastructure. This order marks WABAG's entry into the CIS region and the Georgian market, further strengthening its position as a trusted partner in delivering sustainable and innovative water management solutions globally.

Commenting on this development, Mr. Mahmut Gedek, Chief Executive Officer - Europe Cluster said, "We are proud to secure the Kutaisi WWTP contract, marking WABAG's entry into Georgia, and we thank our customer for their trust. Leveraging our experience, we have delivered a technically robust and commercially competitive solution ensuring safe discharge into the River Rioni, and sustainable sludge management. The project will bring lasting environmental, health, and social benefits to the residents of Kutaisi."

Order Classification	Small	Medium	Large	Major	Mega
Domestic (in INR Crores)	<i>Upto 100</i>	<i>100 to 250</i>	<i>250 to 600</i>	<i>600 to 1,000</i>	<i>Above 1,000</i>
International (In USD Millions)	<i>Upto 10</i>	<i>10 to 30</i>	<i>30 to 75</i>	<i>75 to 150</i>	<i>Above 150</i>

About WABAG: With over a century of expertise, WABAG stands as a global leader in water technology, delivering innovative and sustainable solutions for both municipal and industrial needs. As a pure-play Indian Water Technology Multinational, WABAG provides end-to-end water solutions tailored to diverse requirements across the world. Powered by more than 2,000 water professionals operating in 25+ countries, WABAG positively impacts millions of lives every day. Over the past three decades, the company has designed and built 1,500+ water and wastewater treatment plants globally, earning its reputation as a trusted lifecycle partner. WABAG manages every phase of the water value chain — from design, engineering, supply, and construction to installation, commissioning, and long-term operations across multiple business models. Driven by a strong culture of innovation, WABAG operates cutting-edge R&D centres in Europe and India and holds 125+ intellectual property rights. Its vision aligns with the United Nations Sustainable Development Goals and core ESG principles, with an emphasis on conservation, resource optimisation, recycling, and reuse. As one of the world's foremost partners in water sustainability, WABAG continues to transform global water challenges into opportunities for a more resilient and sustainable future.

Annexure-I

a)	Name of the entity awarding the order(s)/ contract(s)	United Water Supply Company of Georgia LLC ('UWSCG')
b)	Significant terms and conditions of order(s)/ contract(s) awarded in brief	Scope of the project includes demolition of the existing plant, construction of the new 19 MLD WWTP, and installation of an effluent pipeline to the river. As the Consortium Leader, WABAG will undertake design, engineering, supply, installation, and commissioning of the process systems, along with training of client personnel and supervision of Operation & Maintenance (O&M) for a period of 12 months.
c)	Whether order(s) / contract(s) have been awarded by domestic/ international entity	International Entity
d)	Nature of order(s) / contract(s)	Consortium Award of EPC towards a 19 MLD WWTP in Kutaisi, Georgia followed by 12 months of O&M.
e)	Whether domestic or international	International Project
f)	Time period by which the order(s)/ contract(s) is to be executed	The EPC scope will be completed within 36 months, followed by 12 months of O&M.
g)	Broad consideration or size of the order(s)/ contract(s)	Large Order*
h)	Whether the promoter/ promoter group / group companies have any interest in the entity that awarded the order(s)/ contract(s)? If yes, nature of interest and details thereof	No
i)	Whether the order(s)/ contract(s) would fall within related party transactions? If yes, whether the same is done at arm's length	No

**Note: An International 'Large' order shall mean an order value ranging between USD 30 – 75 Millions.*
