"We are proud to report an all-time high quarterly revenue of INR 296.7 crore, marking a 28% year-on-year growth. We continue to maintain growth momentum despite challenging macro environment on the back of stronger execution.

On the domestic front, while we navigated near-term demand challenges earlier and strategically prioritized export orders, the demand environment has strengthened meaningfully. We continue to deepen our presence across geographies and end-use segments, with a sharp focus on critical industries. Our offerings are specialized, high-value products with inherent entry barriers, positioning us beyond a commoditized landscape.

Our fittings and seamless pipes and tubes capacity expansion remains firmly on track and is expected to be operational in the coming months. Backed by our continued focus on innovation, quality, and operational excellence, we remain confident in sustaining our growth momentum and delivering long-term value for all stakeholders."
