MANAGEMENT COMMENTARY

Mr. Janak Patel | Managing Director

“We are extremely proud to announce our strongest reported half-yearly financial performance, with consolidated revenue reaching ₹7,071.86 Lakhs and Profit After Tax attributable to the Group crossing ₹619 Lakhs for the first time in a half-year period. What makes this achievement particularly significant is that our profitability has grown substantially faster than our revenue, with EBITDA more than doubling and PAT increasing over threefold compared with the corresponding period last year.

These results reflect the progress we have made in scaling our business and improving operating profitability. Our performance also demonstrates the resilience of our business as we continue to move forward following the operational challenges experienced in the previous financial year.

We believe Viaz Tyres is entering an important phase of its growth journey. Our ambition extends beyond increasing turnover; we are focused on building a larger, more competitive and profitable manufacturing enterprise. With substantial capital investment underway and a growing consolidated business, we remain committed to translating our investments into sustainable operating growth and long-term shareholder value.”

Mr. Rajesh Patel | Director

“Our H1 FY27 performance reflects meaningful progress on both operational execution and financial expansion. The improvement in EBITDA margins to 12.43%, alongside robust revenue growth, is particularly encouraging and provides a stronger foundation for our future operations.

A major focus for us continues to be the development of our manufacturing infrastructure. Our Capital Work in Progress has nearly doubled to ₹2,312.73 Lakhs in just six months, highlighting the scale of investment currently underway. We believe these investments are important to supporting our long-term manufacturing ambitions and strengthening our position across the tyre and tube industry.

As we progress through FY27, our priorities remain focused on advancing ongoing projects, improving operational efficiencies, strengthening working capital management and building a scalable manufacturing platform. We are encouraged by the earnings momentum delivered during the first half and remain focused on disciplined execution as we prepare the business for its next stage of growth.”

BALANCE SHEET AND CAPITAL EXPANSION

The Company’s consolidated total assets increased to ₹11,481.36 Lakhs as of September 30, 2026. Capital Work in Progress rose by ₹1,149.47 Lakhs during H1 FY27, reflecting substantial investment in ongoing projects.

During the period, the Company converted 20,00,000 convertible warrants into equity shares allotted to Promoter and Promoter Group allottees following receipt of the balance consideration of ₹1,050 Lakhs. The Company has also initiated the shareholder approval process for its proposed migration from NSE EMERGE to the NSE Main Board, subject to shareholder and exchange approvals.
