Dear Sir(s)/Madam,

Sub: Intimation pursuant to Regulation 30 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015.

Ref: Intimation regarding Press Release

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, and in line with the Company's Policy on Determination of Materiality, we wish to inform you that the Company has issued a press release titled:

“Vibhor Steel Tubes bags Rs 16.87 crore order for supply of fabricated and galvanised towers from Agrawal Infracab”

The said press release is enclosed herewith for your information and records

You are requested to take the above information on record.

Yours faithfully,

For Vibhor Steel Tubes Limited

Mr. Vibhor Kaushik
Managing Director
DIN: 01834866

Vibhor Steel Tubes bags Rs 16.87 crore order for supply of fabricated and galvanised towers from Agrawal Infracab

Mumbai, March 20, 2026: Haryana-based high-quality steel tubes and pipes maker, Vibhor Steel Tubes Ltd (VSTL), has received Rs 16.87 crore order for supply of fabricated and galvanised towers from Agrawal Infracab, a leading manufacturer of cables and conductors for overhead power transmission and distribution lines across the country.

Fab and gal towers are typically used for infrastructural purposes requiring high strength, durability, and corrosion resistance.

Commenting on the development, **Mr Vijay Kaushik, Chairman and Executive Director, Vibhor Steel Tubes**, said, “We have been witnessing a buoyant demand for value added steel products backed by a steady growth in infrastructure projects across the country. This order is a testament of our strong manufacturing capabilities and our commitment to deliver high-quality fabricated and galvanised steel towers reinforcing our position as a trusted partner in the fast-growing infrastructure and power transmission sectors. We have seen a healthy growth in our order book this year and we are confident of sustaining the growth momentum moving forward.”

In June this year, VSTL commissioned its 1.56 lakh MT greenfield project in Odisha and subsequently commenced supply of crash barriers, power transmission line towers, Electric Resistance Welded (ERW) and Galvanised (GI) pipes produced at the unit. The plant, which entailed a total investment of Rs 119.83 crore, offers several value-added steel products such as power transmission line towers, crash barriers, high mast lighting poles, octagonal poles and monopoles.

With the new capacity commissioned, the company’s total capacity has increased to 377,000 MTPA, located across its three plants in Maharashtra, Telangana and Odisha.

The company manufactures steel products such as electric resistance welded pipes, hot-dipped galvanized pipes, hollow section pipes and primer painted pipes among others. VSTL, which has a contract manufacturing agreement with Jindal Pipes to manufacture and supply finished goods under the brand name Jindal Star, currently sees over 80% of its total turnover coming from this one segment.

[About the company](#)

Vibhor Steel Tubes Limited (VSTL) is a leading manufacturer, exporter and distributor of steel pipes and tubes, serving key engineering and infrastructure sectors in India. With over two decades of operating experience, the company has built strong manufacturing capabilities and a reliable presence across these sectors.

VSTL offers a diversified product portfolio comprising ERW pipes, hot-dipped galvanized pipes, hollow sections, primer-painted pipes, crash barriers, transmission line towers, high mast lighting poles, octagonal poles and monopoles, catering to a wide range of structural and engineering applications. The company has a long-standing association with Jindal Pipes Limited since 2003 and manufactures

and supplies finished products under the “Jindal Star” brand, pursuant to a renewed agreement dated April 01, 2023.
