AIRTEL'S WITHDRAWAL OF FOUR PREPAID PLANS SIGNALS SHIFT

Telcos look beyond tariff increase for Arpu growth

OJASVI GUPTA
New Delhi, August 12

TELECOM OPERATORS ARE increasingly looking at ways to raise average revenue per user (Arpu) without another industry-wide tariff hike, with changes to pricing ladders and premiumisation emerging as the next levers for growth. Bharti Airtel's decision to withdraw its ₹299 prepaid plan, along with three other packs, is the latest example of operators trying to extract more revenue from their existing subscriber base without raising headline tariffs.

The competitive dynamics make a conventional tariff hike particularly difficult for Airtel. The company has added more mobile subscribers than Reliance Jio in each of the last two months, including 2.99 million in June against Jio's 2.15 million, according to Telecom Regulatory Authority of India (Trai) data. With Airtel gaining momentum, Jio has less immediate incentive to initiate another industry-wide tariff increase, as a price hike could potentially slow its subscriber additions. Airtel, which already commands a premium over Jio on Arpu, would then find it difficult to move alone and widen the price gap further. This leaves selective pricing changes as a more practical route to improve realisations.

Airtel has discontinued its ₹299, ₹579, ₹619 and ₹649 prepaid plans, leaving a bigger gap between its ₹199 entry-level plan and the ₹349 offering. The next price point is ₹399. The ₹299 plan, which offered 1.5 GB of data a day for 28 days, is effectively replaced by the ₹349 pack offering 2 GB a day for the same validity. The change therefore nudges users towards higher-value plans without being presented as a broad-based tariff increase.

The move could have a meaningful impact on Airtel's Arpu if customers migrate to the higher-priced plans. Around 80% of Airtel's prepaid users are estimated to be on the ₹299 plan, according to industry sources.

Even a partial migration towards ₹399 could provide a sizeable lift to Arpu. Some users could move to competing operators, but Airtel could also benefit from a higher-paying subscriber mix, making the move less about retaining every low-value customer and more about improving the economics of its base.

The strategy is consistent with Airtel's broader premiumisation push. The company added 1 million postpaid customers in the June quarter, its highest-ever quarterly postpaid addition, taking its postpaid base to around 30 million. Mobile Arpu rose to ₹264 from ₹257 in the March quarter, while its 4G/5G customer base expanded by about 5 million to 301.8 million.

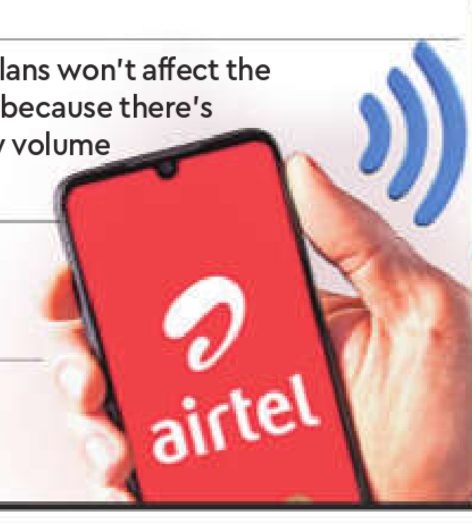
Airtel is also trying to give users a reason to pay more. Its Fast Lane offering for postpaid customers uses 5G network slicing to provide a differentiated network experience. While the company has not directly attributed the record postpaid additions to Fast Lane, the service is part of a broader effort to premiumise the customer base and attach higher-value services to postpaid plans.

The latest move also reflects Airtel's longer-term view that the industry's pricing architecture needs to be repaired. The company has said this is necessary for sustained Arpu growth and has described simplifying the pricing ladder as part of the process. The ₹199 entry-level plan remains unchanged, while intermediate price points have been removed, creating a sharper path towards higher-value plans.

For the industry, this could mark a change in the way tariffs are repaired after the large increases of 2024. Rather than another uniform increase that requires Jio and Airtel to move together, operators could increasingly use plan rationalisation, prepaid-to-postpaid migration and differentiated 5G services to push up customer realisations.

STRATEGY RESET

- Airtel has discontinued the ₹299, ₹579, ₹619 and ₹649 plans
- These plans won't affect the company because there's hardly any volume for them
- Users recharging with ₹299 are now likely to opt for ₹399 plan, a ₹50 gain for Airtel
- The ₹299 plan is estimated to account for around 80% of its prepaid users
- Airtel has added more mobile subscribers than Reliance Jio in each of the last two months
- Airtel posted a subscriber addition of 2.99 million in June against Reliance Jio's 2.15 million



Tata Motors profit jumps 83% to ₹2,556 crore, sales rise 26%

AGENCIES
New Delhi, August 12

COMMERCIAL VEHICLE MAKER Tata Motors on Wednesday reported an 83% jump in consolidated net profit at ₹2,556 crore in the first quarter ended June 30, led by a mark-to-market gain on investments in Tata Capital.

The company had posted a consolidated net profit of ₹1,397 crore in the corresponding quarter previous fiscal, Tata Motors said in a regulatory filing. Consolidated total revenue from operations in the first quarter stood at ₹ 20,667 crore as against ₹17,324 crore in the year-ago period, it added.

Vehicle wholesales in the quarter stood at 108,700 units, a growth of 26% over the year-ago period, it said. Total expenses in the quarter under review were higher at ₹18,038 crore as compared to ₹15,982 crore in the same period a year ago, the company said.

Commenting on the performance, Tata Motors MD & CEO Girish Wagh said, "Tata Motors delivered a strong quarter, with volumes growing 26% year-on-year, driven by a winning portfolio, focused market interventions, and disciplined execution. These efforts helped us strengthen customer preference and further consolidate our market position." He said the commercial vehicle industry remained resilient in Q1 FY27, supported by India's strong economic fundamentals, healthy fleet utilisation, and sustained demand across key sectors.

On the company's acquisition of Iveco update, Tata Motors said the regulatory approvals are in the final stage, with only one approval pending, the company said. "All the queries of the competent authority have been addressed, and the final clearance is expected to be received by the end of August 2026. Accordingly, the tender offer is expected to be launched in early September 2026 with an expected closure by early November 2026," it added.

The auto major said it expects demand to stay firm in the coming quarters.

VIVEAT SUSAN PINTO
Mumbai, August 12

GRASIM INDUSTRIES, THE flagship company of the Aditya Birla group, on Wednesday reported a 51.1% year-on-year (y-o-y) rise in consolidated profit for the June quarter, aided by stronger operating performance across its businesses. Consolidated profit for the quarter ended June 30 rose to ₹2,146 crore from ₹1,421 crore a year ago.

Revenue increased 21.4% to ₹48,716 crore, while earnings before interest, tax, depreciation and amortisation (Ebitda) rose 27.7% to ₹7,772 crore. The Ebitda margin improved to 16% from 15.2% a year ago.

Stronger operating performance across businesses help Grasim Industries post a good show in the June quarter

The building materials portfolio remained the main contributor to performance. Revenue from the segment, which includes cement, paints and B2B e-commerce, rose 21% to ₹28,835 crore. Ebitda increased 17% to ₹5,002 crore.

Birla Opus, the group's paints business, continued to gain traction, with revenue rising 64% y-o-y to ₹ 1,661 crore. Its market share expanded by around 30 basis points sequentially. Birla Pivot, the group's B2B e-commerce platform, also continued its expansion, with revenue jumping 75% to ₹ 2,548 crore on strong customer traction.

Within cement, total grey cement capacity stood at 205.5 million tonne per annum (MTPA) after an 8.7 MTPA expansion, with the company targeting capacity of more than 240 MTPA by March 2028. Total cement sales volumes rose 12.2% y-o-y to 41.3 million tonne, while ready-mix concrete volumes increased 18% y-o-y to 4.6 million cubic metres.

Operating Ebitda per tonne stood at ₹1,214, supported by operating leverage and better cost management. The business also continued to increase its green power mix, which stood at 45.6% in Q1 FY27 against a target of 85% by FY30.

Yokohama eyes deeper play in OEM supply segment

AKBAR MERCHANT
Visakhapatnam, August 12

YOKOHAMA INDIA PLANS to raise its tyre manufacturing capacity to 6.3 million units from the current 4.5 million as it gears up for sustained growth in India's SUV and premium-tyre market.

The company has identified space at its existing plants for installing additional machinery, allowing it to add capacity incrementally in line with demand. "Today we are at 4.5 million, and we have plans to go up to 6.3 million including in the current footprint that we have. And if you go beyond that, our parent company has shown that they are always willing to invest for growth," Nitin Mantri, chairman, Yokohama India, said.

Yokohama estimates that around 80% of SUVs sold in India are monocoque models. The company is therefore expanding its Geolandar range into smaller diameters, including 16-inch sizes, for popular models such as the Hyundai Creta and Kia Seltos.

"The focus is to make sure that we have sizes for each and every model out there. But we'll make sure that going back to the roots of Geolandar, we are going to cover AT, MT, HT, and every other pattern that we have," Mantri said. The Japanese tyre maker, which has recorded high double-digit growth in India in recent years, is also looking to expand its original equipment manufacturer (OEM) business beyond Maruti Suzuki as additional capacity becomes available.

"Today we supply to Suzuki or Maruti, and we would like to keep on adding that to some premium vehicles that kind of support our brand image and positioning in the Indian market," Mantri said.

Yokohama has invested more than ₹3,000 crore in its Visakhapatnam facility over the past four years. Its total investment across passenger-car and off-highway tyre operations in India is approaching ₹7,000 crore over the past five to six years. The company has also announced an investment in Odisha.
